Technical Skills	• Programming Languages: Swift, Java, C#, Python, MySQL, PHP, HTML, CSS, JavaScript, ReactJS. • IDE/Development Tools: Visual Studio, NetBeans, Xcode. • Software & Platforms: Oracle SQL Developer, SSMS, Unity, AWS, Enterprise Architect, Microsoft Office Suite. • Source Control: GitHub, Azure DevOps. • Frameworks & Web Technologies: .NET Framework, ASP.NET (MVC, Web API)
Soft Skills	• Strong teamwork and collaboration, with the ability to work well in diverse environments. • Thrives under pressure, maintaining focus and delivering results even in tough situations. • Excels in time management, prioritizing tasks, and meeting deadlines efficiently.

PROJECTS

Web Development

- **LedgerLink** – Web-based SaaS platform for SMEs in Bahrain, that enables centralized management of multiple stores and records operational data. Built with ReactJS, ASP.NET Core APIs, Azure SQL Database, ASP.NET Identity, Gemini API, EF Core, and HighCharts.
- **RentOps** – Website for an equipment rental company to manage operations, developed using ASP.NET Core with an MVC architecture connected to a class library project for shared models.
- **Borrow My Charger** – Website providing electric-vehicle charging spots, developed with HTML, CSS, PHP, and JavaScript, and connected to a PhpMyAdmin database.

Game Development

- **OperationExoQuest** – PC game developed using Unity and C#.

Desktop Applications

- **RentOps Desktop Application** – .NET Framework Windows application linked to the same database as the RentOps website, used by managers and administrators.
- **Happy Journey** – .NET Framework Windows application functioning as a flight management system, using a local database with SQL commands and queries.
- **Premier League** – Java desktop application for managing a sports league, allowing the addition and management of teams and players.

Mobile Applications

- **Jobify** – iOS mobile application that enables companies to post job positions and allows users to submit applications. Developed in Xcode, connected to Firebase and Cloudinary for image uploads.

LANGUAGES

- Arabic (native)
- English (excellent reading, writing and speaking)
