INTRODUCTION

Citi311

City service 311 was first launched in **Baltimore, Maryland**, in **1996**. It is a **citizen service platform** that enables residents to report **non-emergency issues**, request **public services** and **communicate with local authorities**.

CITI311 IN NYC

New York City is the **largest** city in the United States with a population of approximately **8.34M** people.

The official NYC311 mobile app was launched in **2009**.

CITI311 IN CHICAGO

Chicago is the **third-largest** city in the United States with a population of approximately **2.69M** people.

The official CHI311 mobile app was launched in December **2018**.

PROBLEM STATEMENT

Between **July 2018 and April 2020**, **2.33%** of service requests in **Chicago** and **4.75%** of service requests in **New York City remained unresolved** for a **long time** after being created, indicating **delays in resolving public issues** and leading to a **reduction in the quality of public services**.

OBJECTIVES

1. What is the **total number** of service requests?
2. What is the **number of open** service requests?
3. How did the **number** of service requests **change over time**?
4. Which service request **categories** received the **highest number** of requests?
5. What is the **average resolution time** for each service request category?
6. Which five service request **categories** have the **longest** average resolution **time**?
7. Which five **agencies** handled the highest number of service requests?
8. Which **location** received the highest number of service requests?

ANALYSIS

NUMBER OF REQUESTS

NYC

4.30M

Due to larger population
'city that never sleeps'

CHICAGO

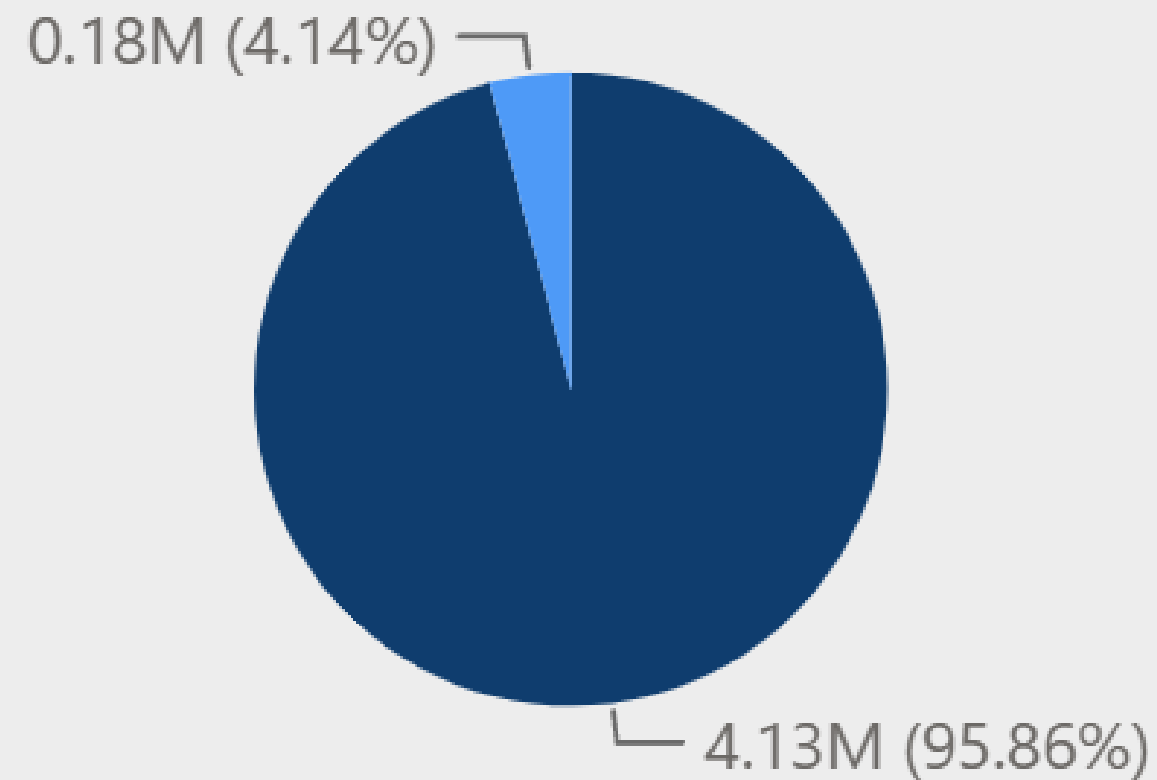

2.76M

Due to smaller population
'Slower-Paced life style'

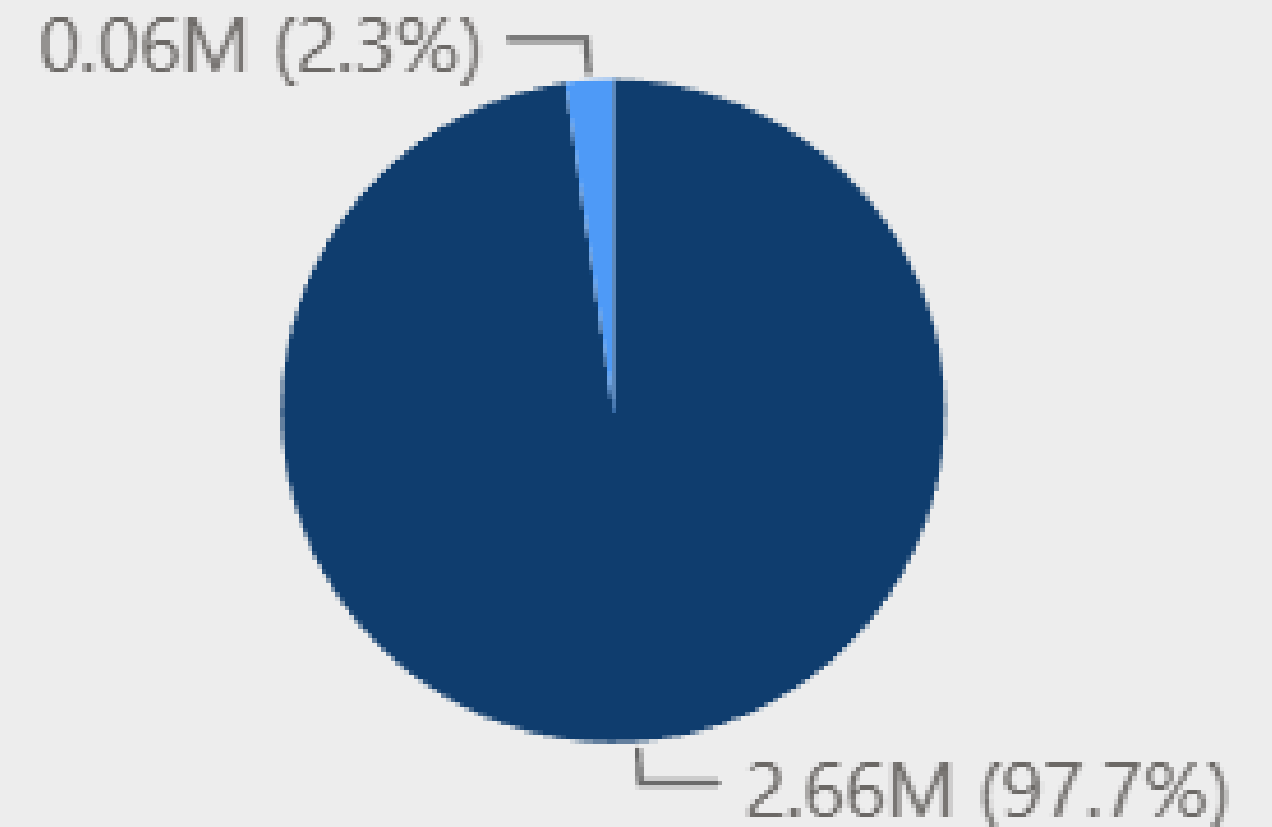

NUMBER OF OPEN REQUESTS

NYC

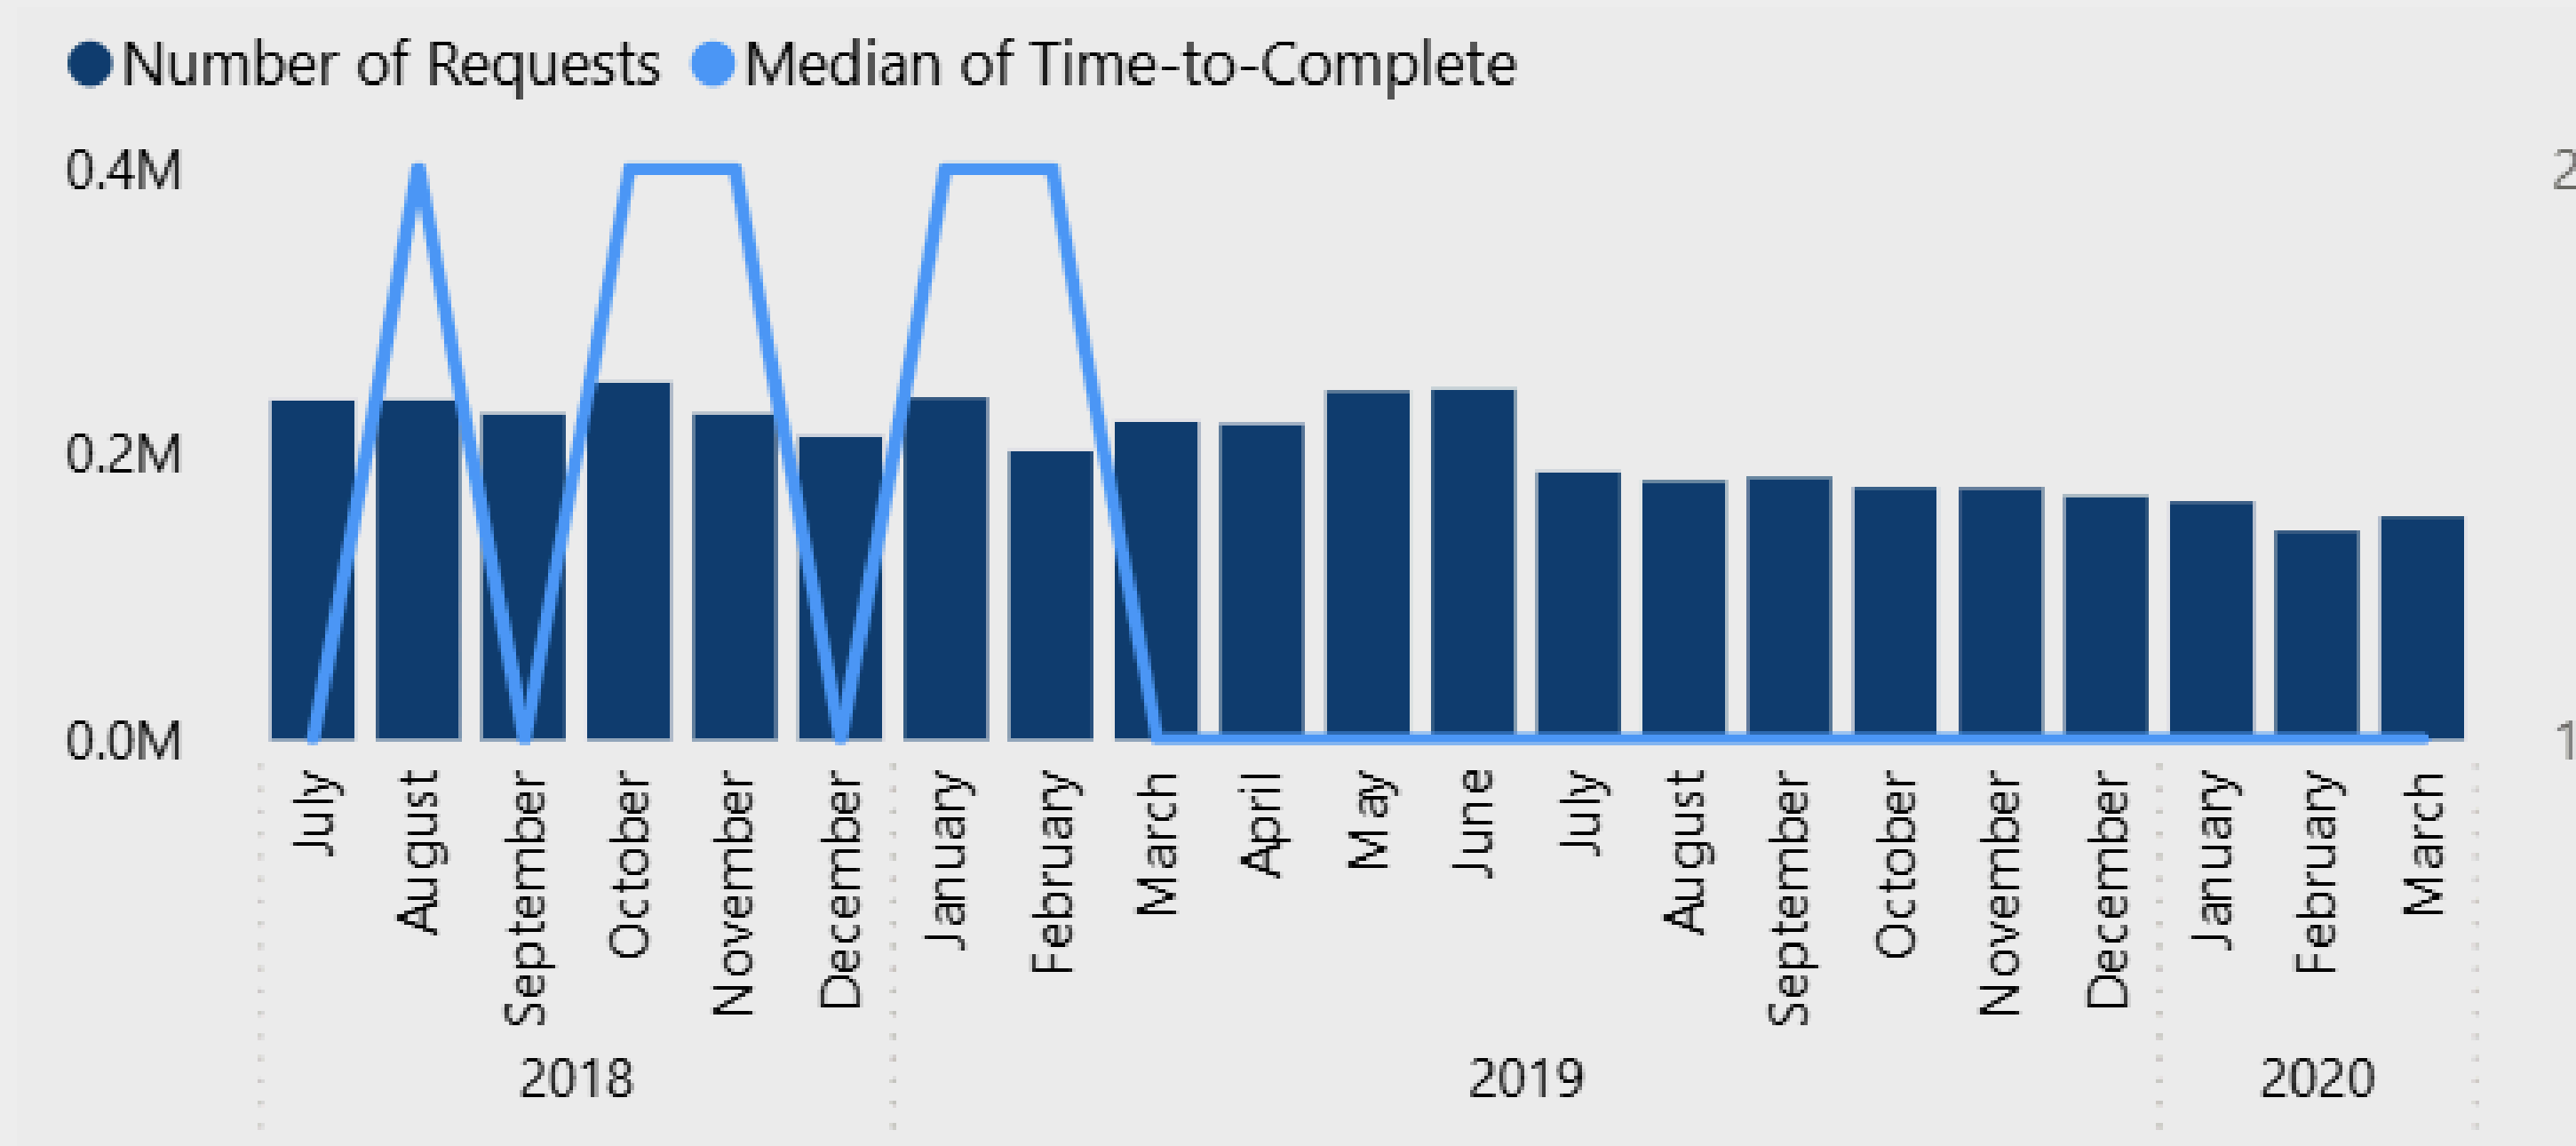

CHICAGO

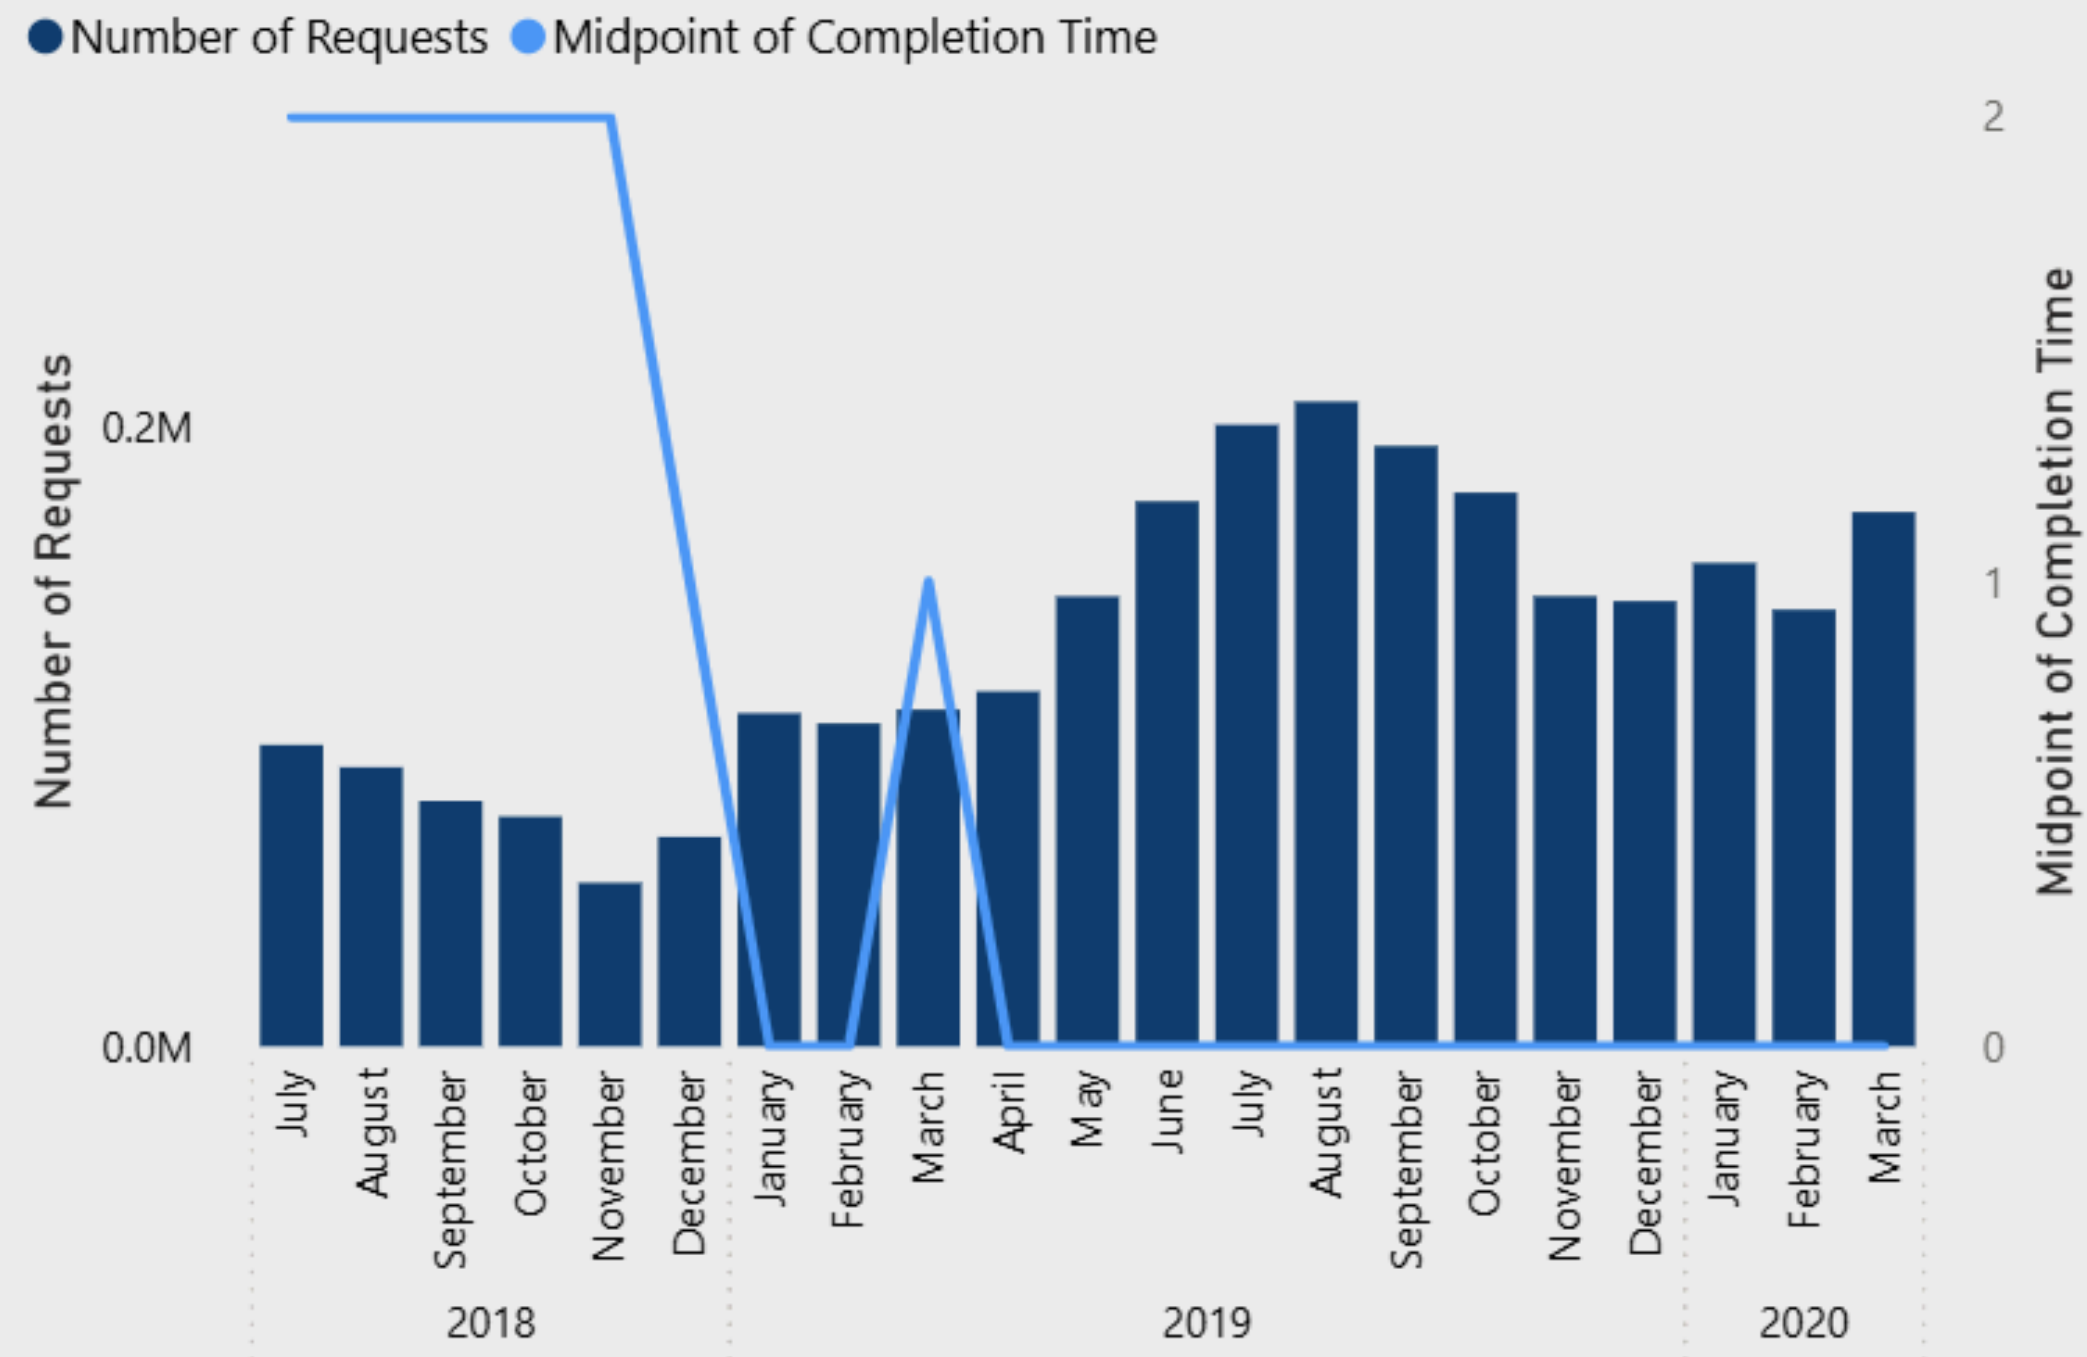

The percentage of the open requests **varies** as the **category** of requests and demand on the responsible **agencies** differ.

NUMBER OF REQUESTS OVER TIME IN NYC

- **Requests volumes** remained relatively stable, with lower request number in 2020.
- **The midpoint completion time** showed some variation, depending on the requests during the time.

NUMBER OF REQUESTS OVER TIME IN CHICAGO

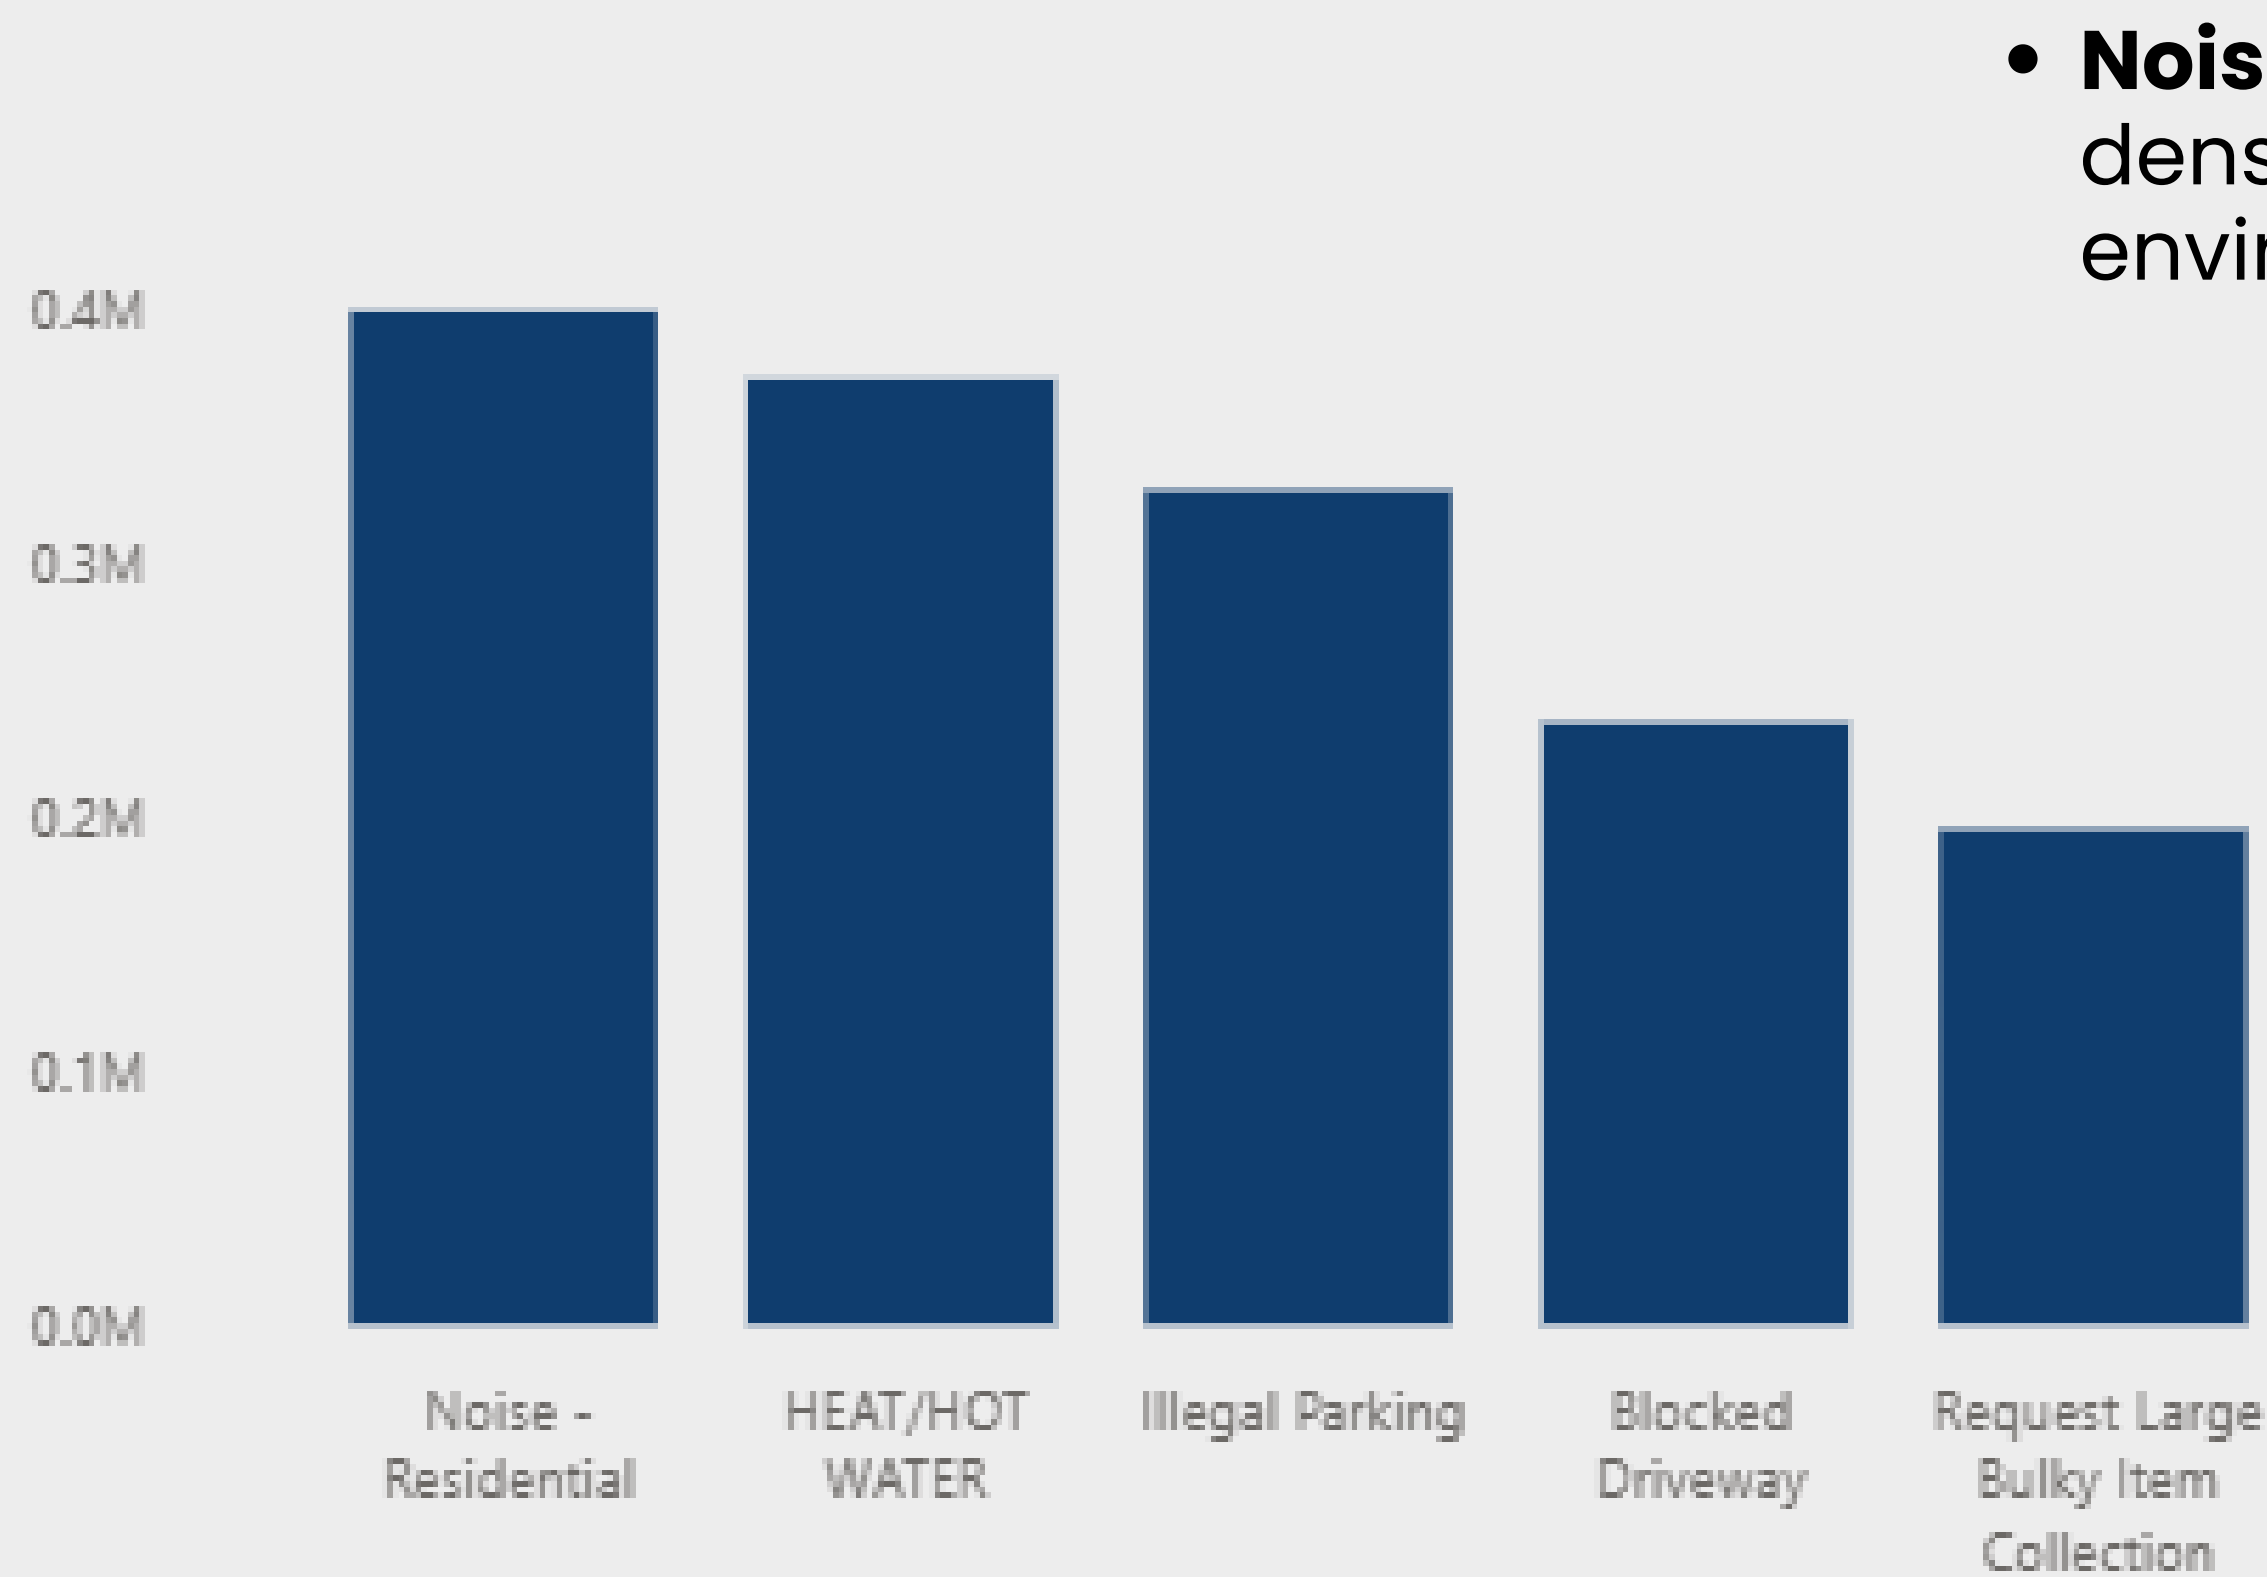

- **Request volumes** increased throughout 2019.
- **The midpoint of completion time** decreased over the study period, indicating faster request resolution.

Both are due to the fact that Ch311 started as sn official mobile app in Dec 2018.

REQUESTS BREAKDOWN

COMPLETION TIME

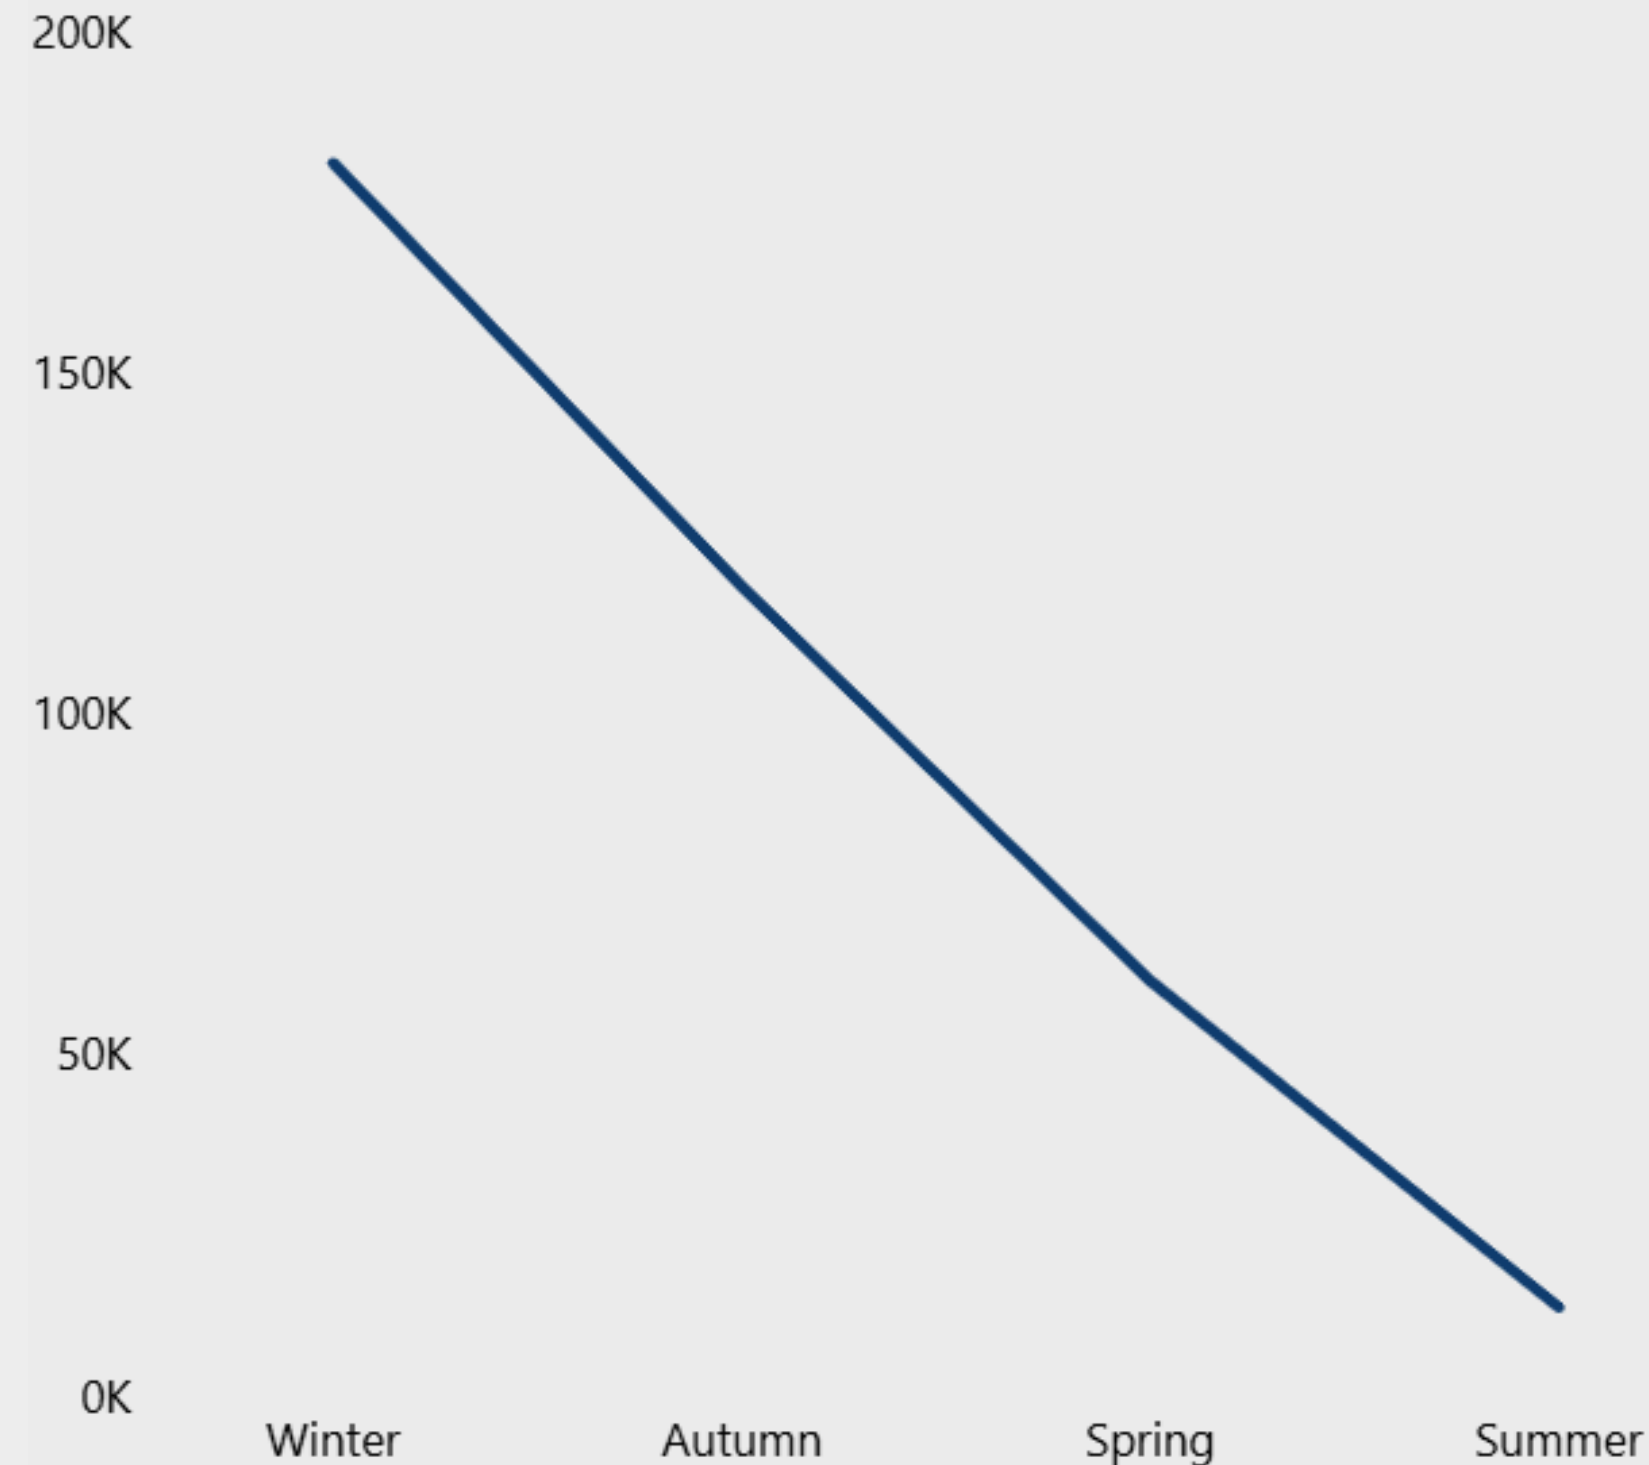

TOP 5 REQUESTS BY CATEGORY IN NYC

- **Noise and Illegal Parking** is due to the dense population and busy urban environment in NYC.

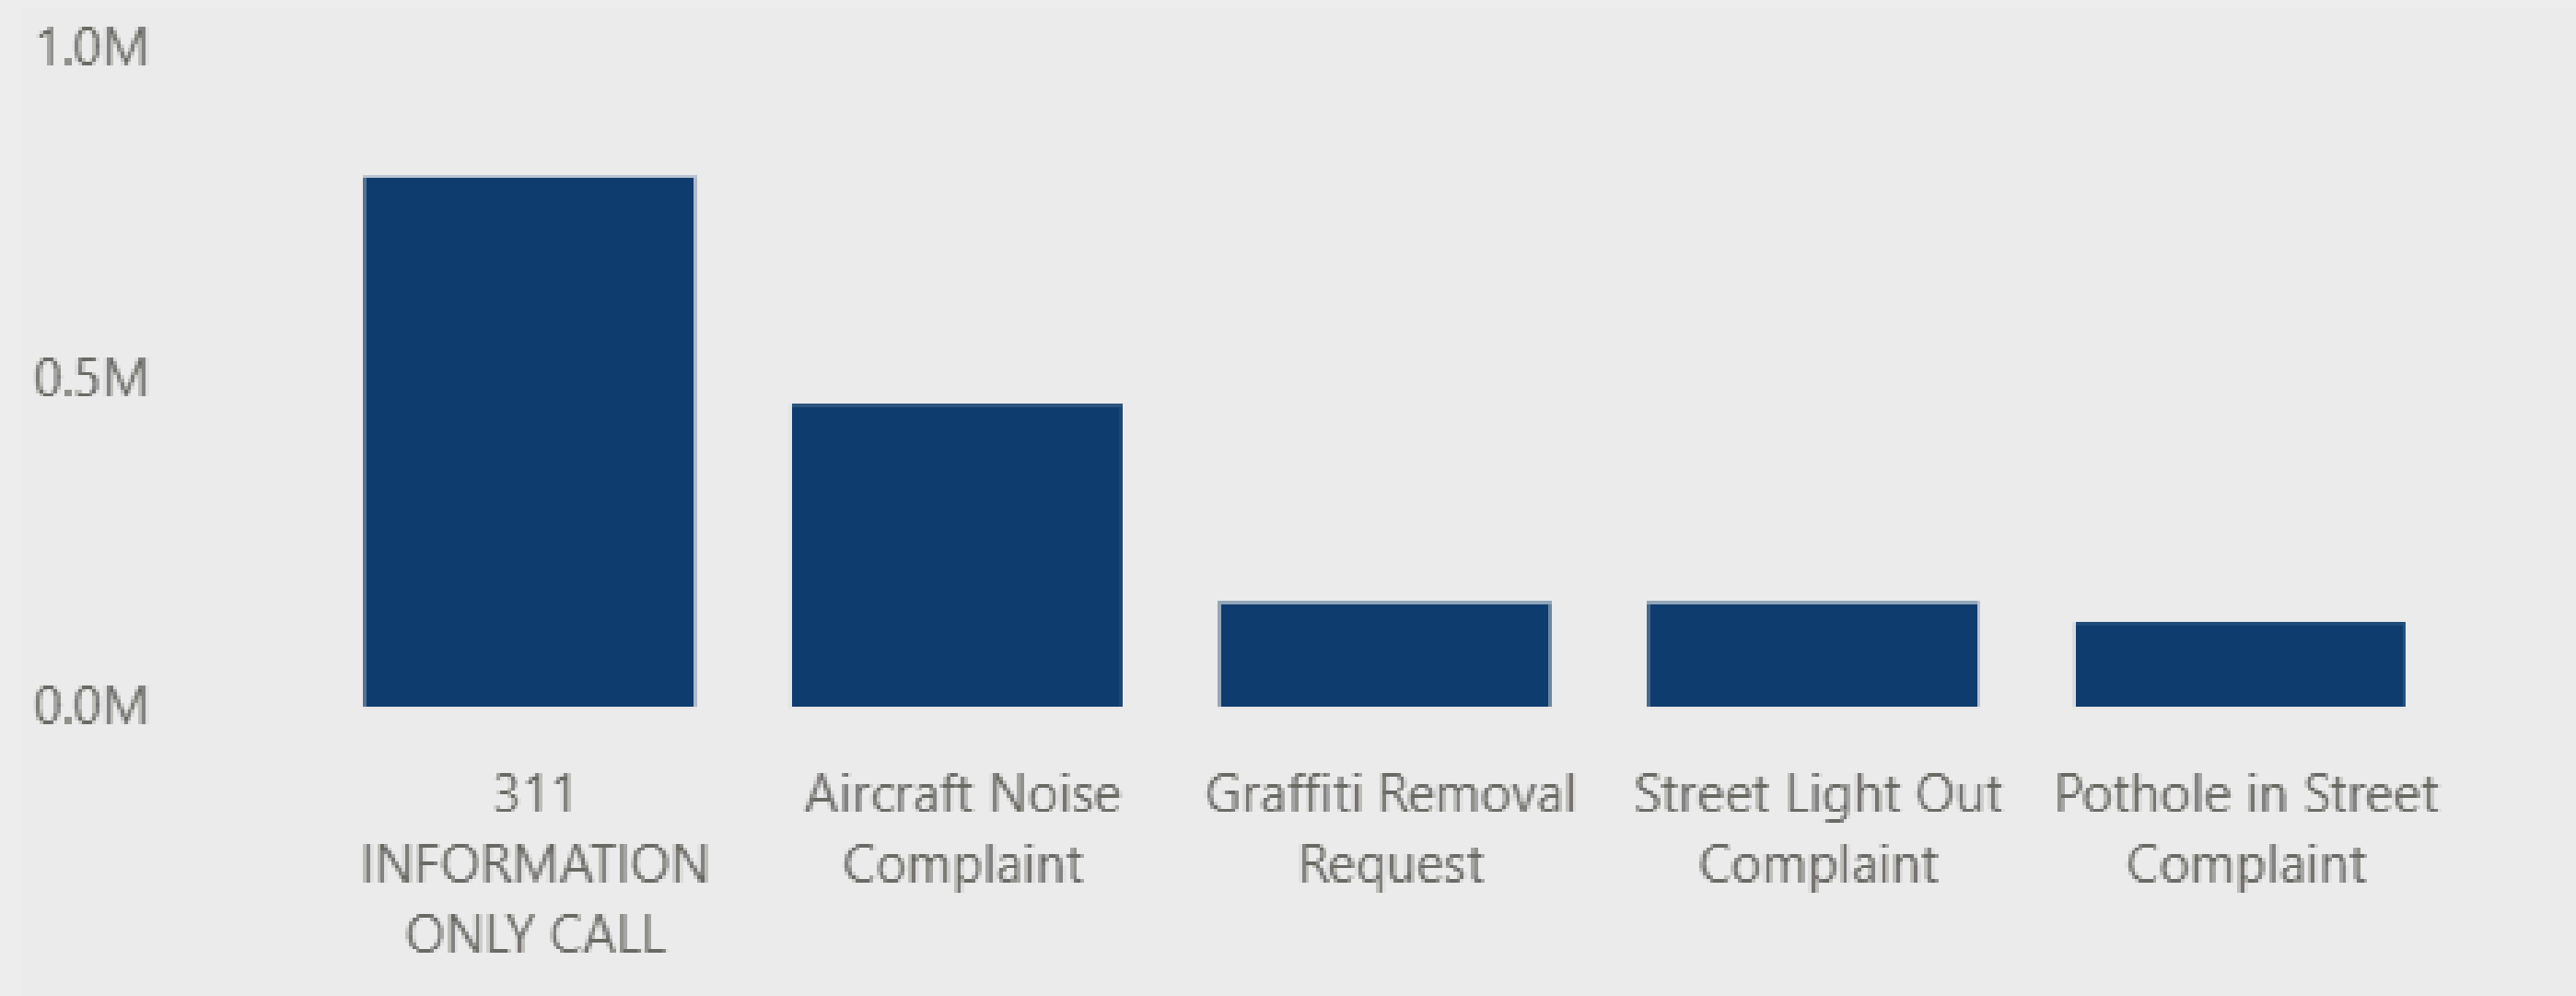

HEAT & HOT WATER REQUESTS IN NYC

Heat & Hot Water Requests In Seasons

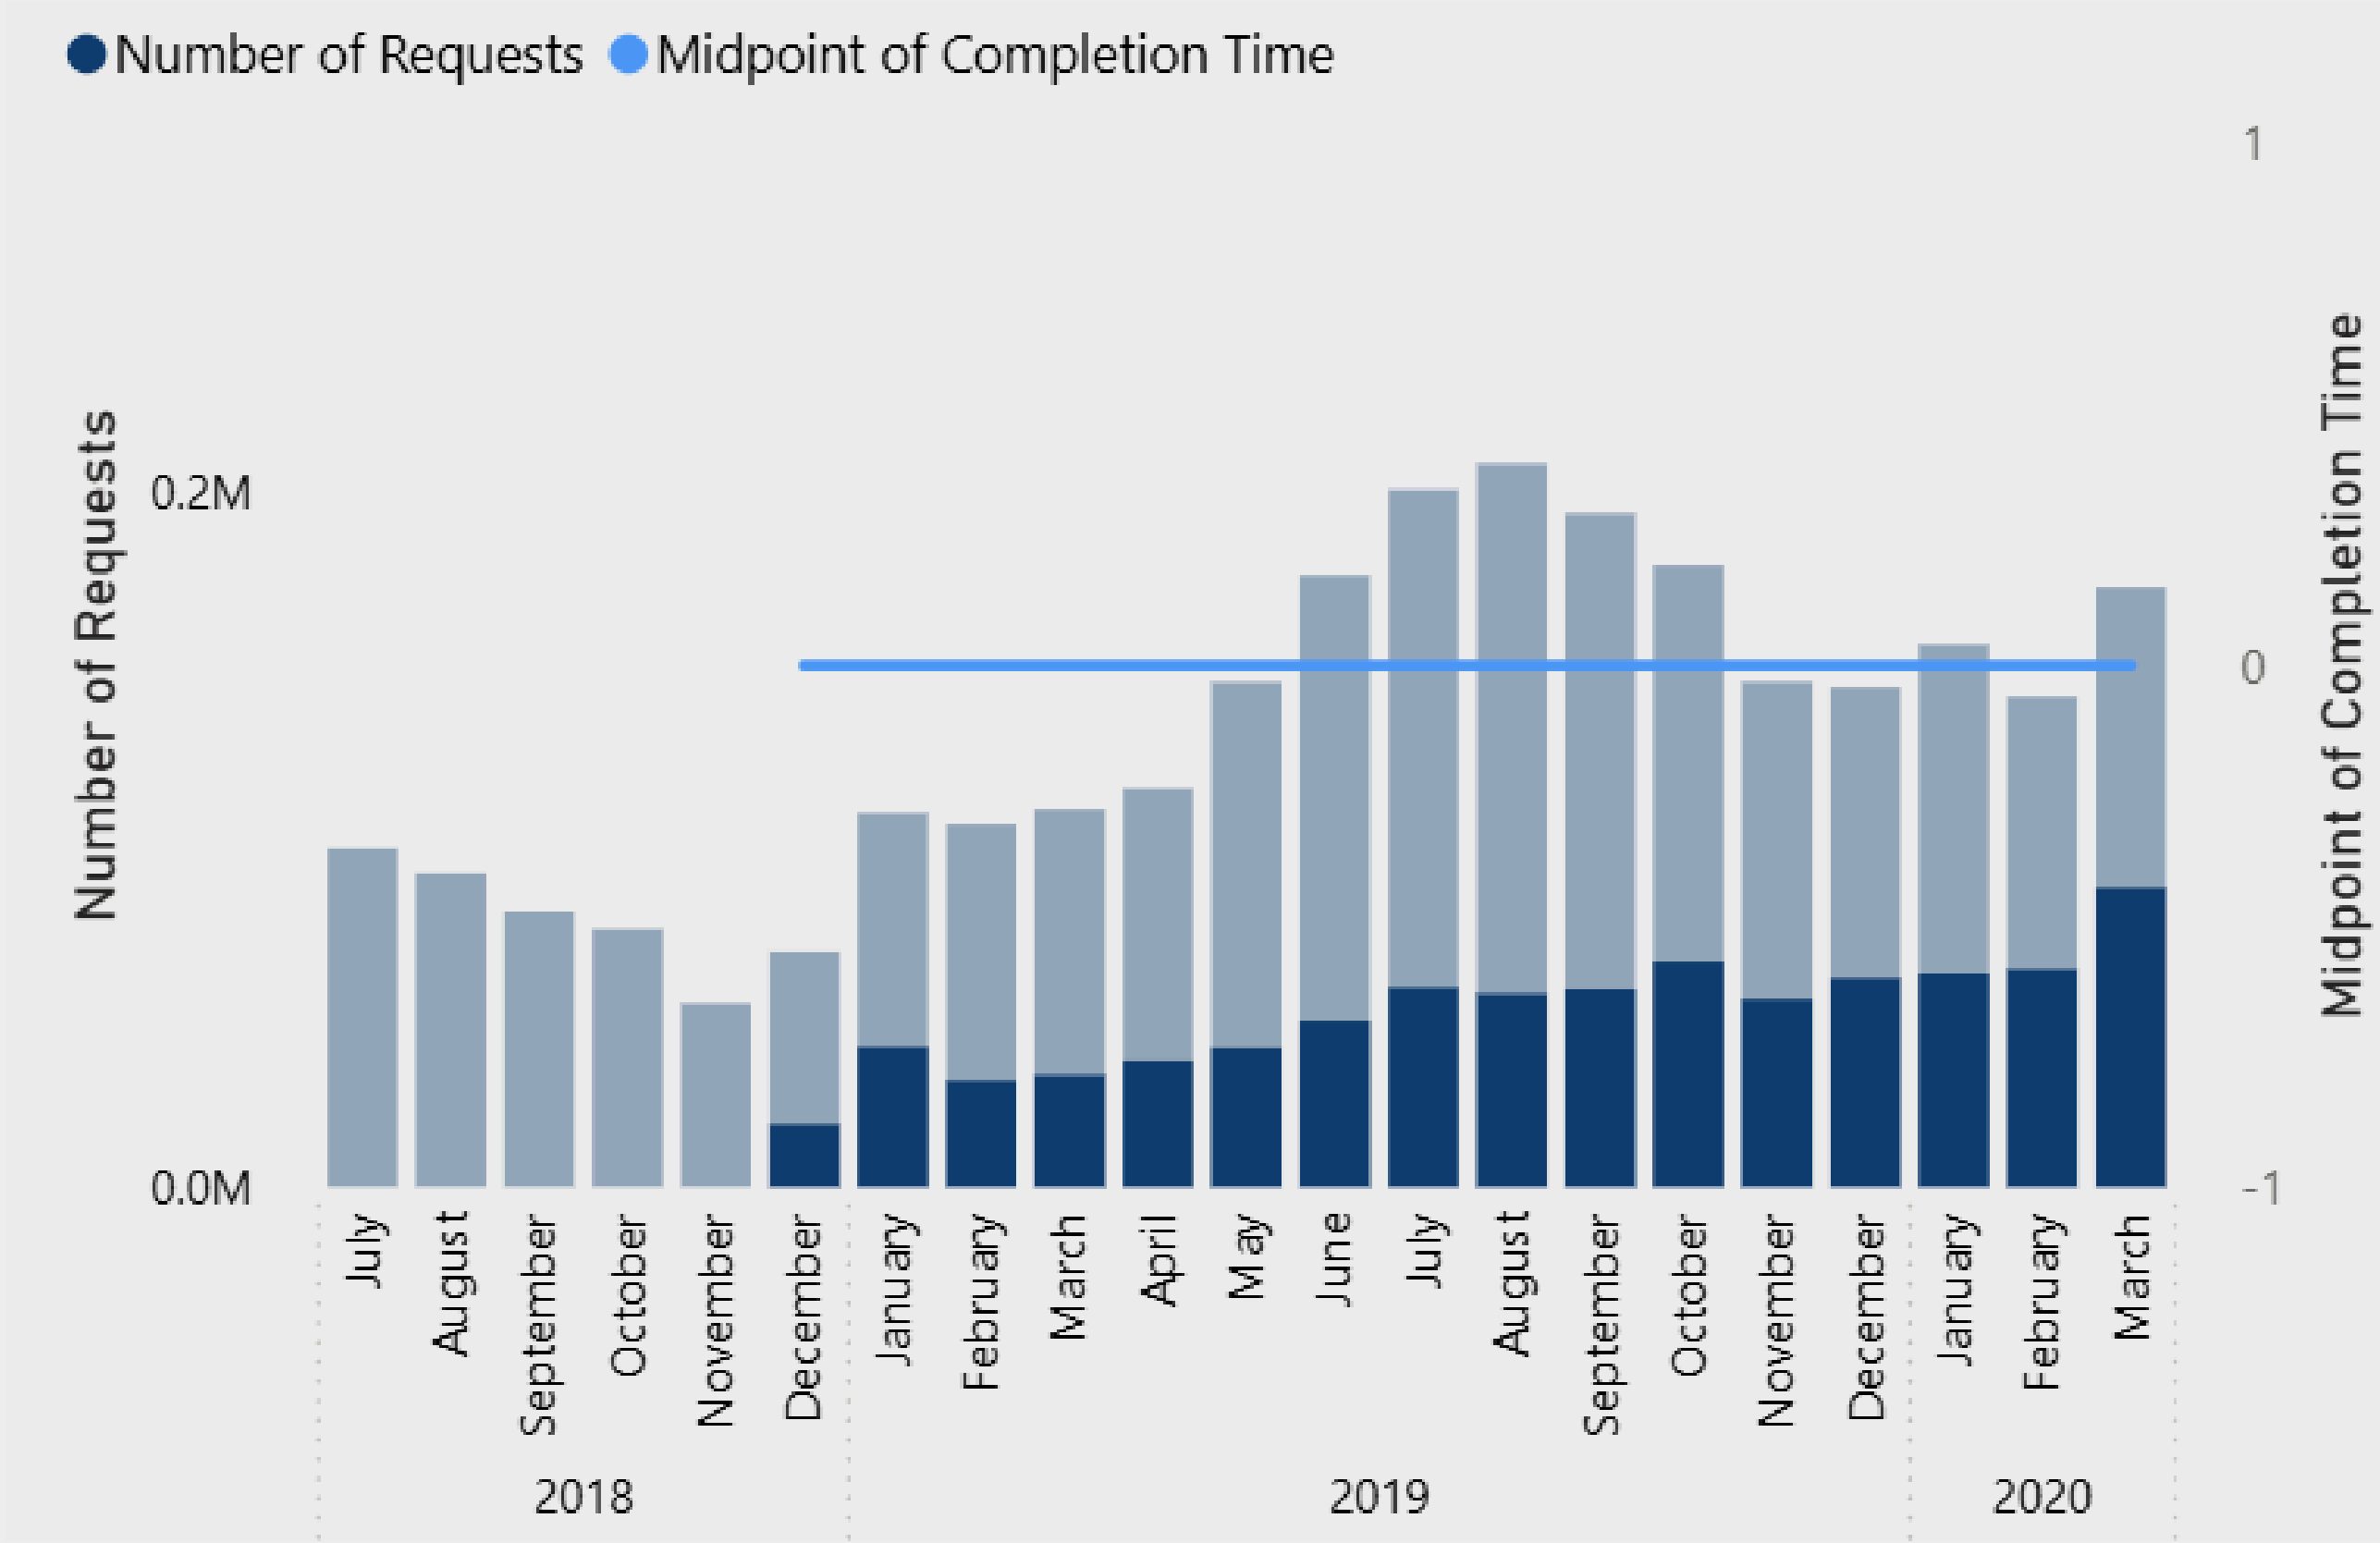

- **Heat/Hot Water** particularly during the winter months when heating services are in greater demand.

TOP 5 REQUESTS BY CATEGORY IN CHICAGO

- **Information Calls** is highest number of requests as the platform is still newly introduced and was relied on as a main source of communication within the city (when services, rules, or eligibility criteria are unclear).
- **Aircraft Noise** Complaints were frequent Chicago's air traffic experienced the highest operational peaks in its history.

INFORMATION CALL & COVID 19 PANDAMIC

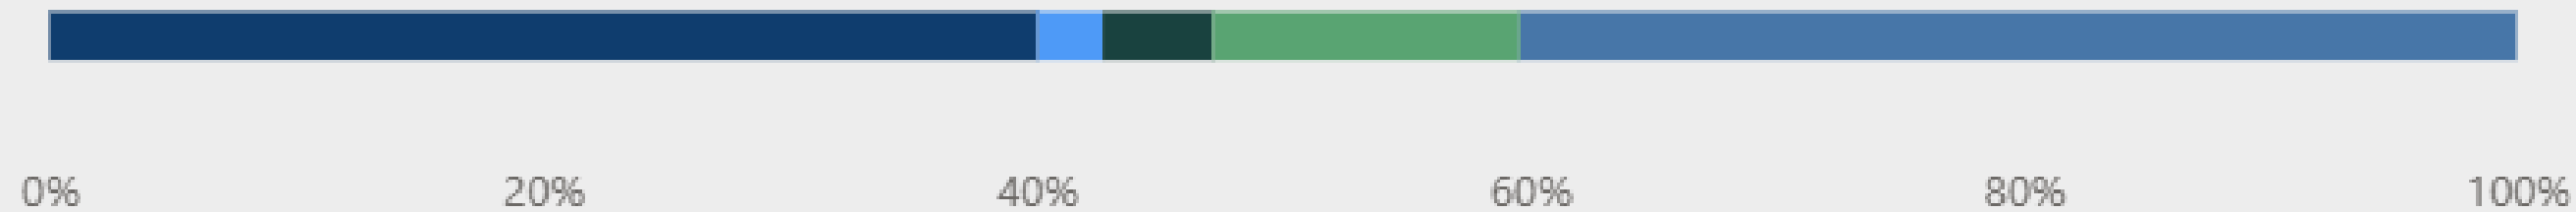

- Additionally, the volume of information only call showed increasing in 2020 due to COVID-19 pandemic.

DURATION TO RESOLVE THE REQUESTS

NEW YORK

Duration ● Less than a day ● More than 3 months ● More than a month ● More than a week ● Within a week

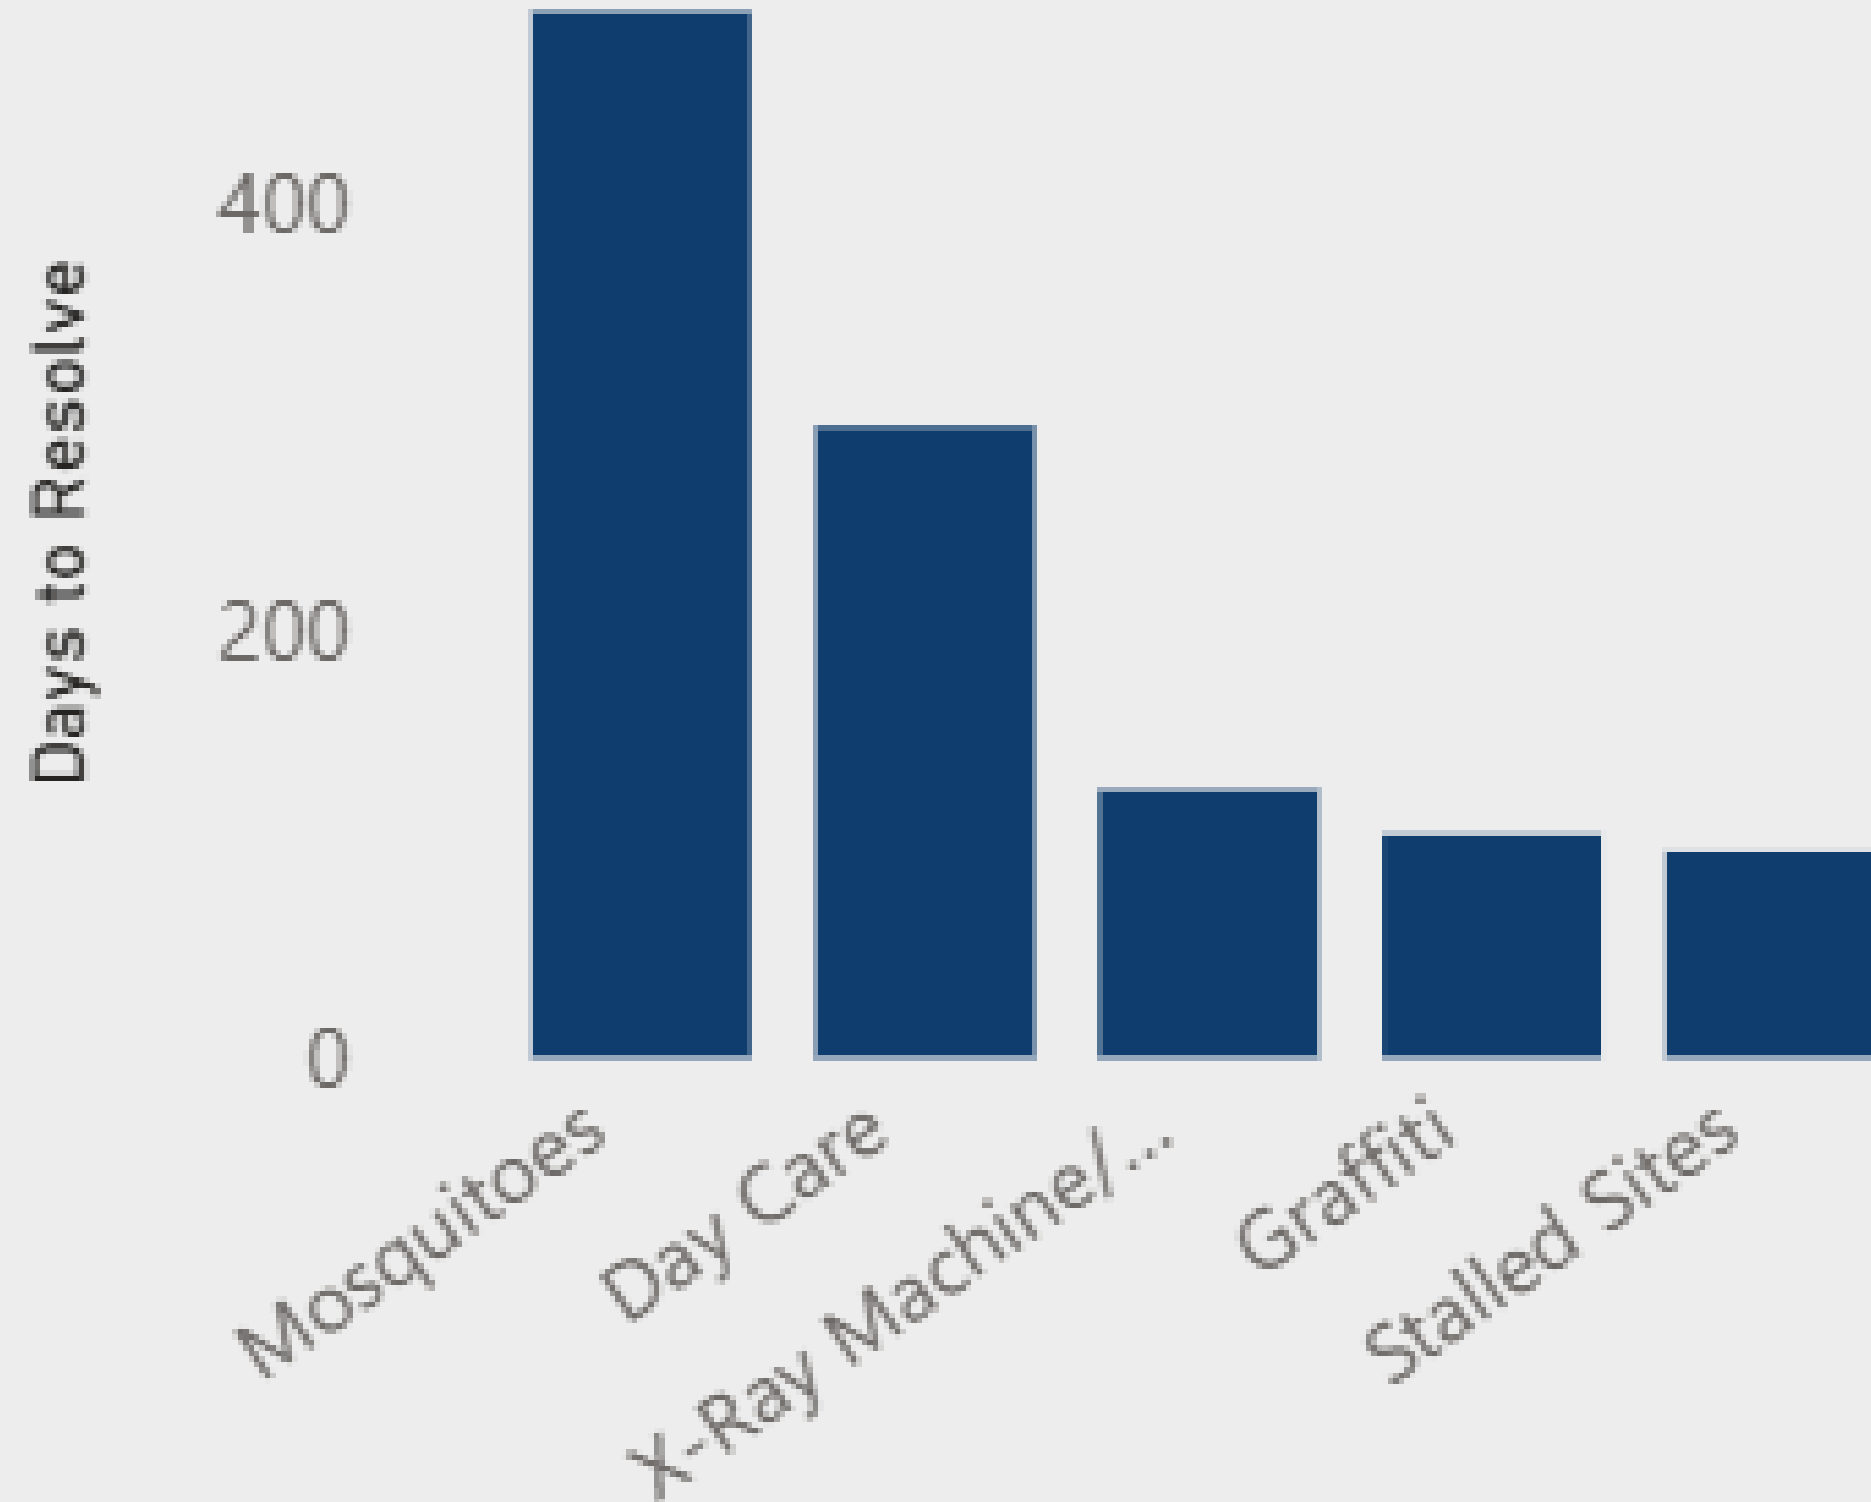

CHICAGO

Duration ● Less than a day ● More than 3 months ● More than a month ● More than a week ● Within a week

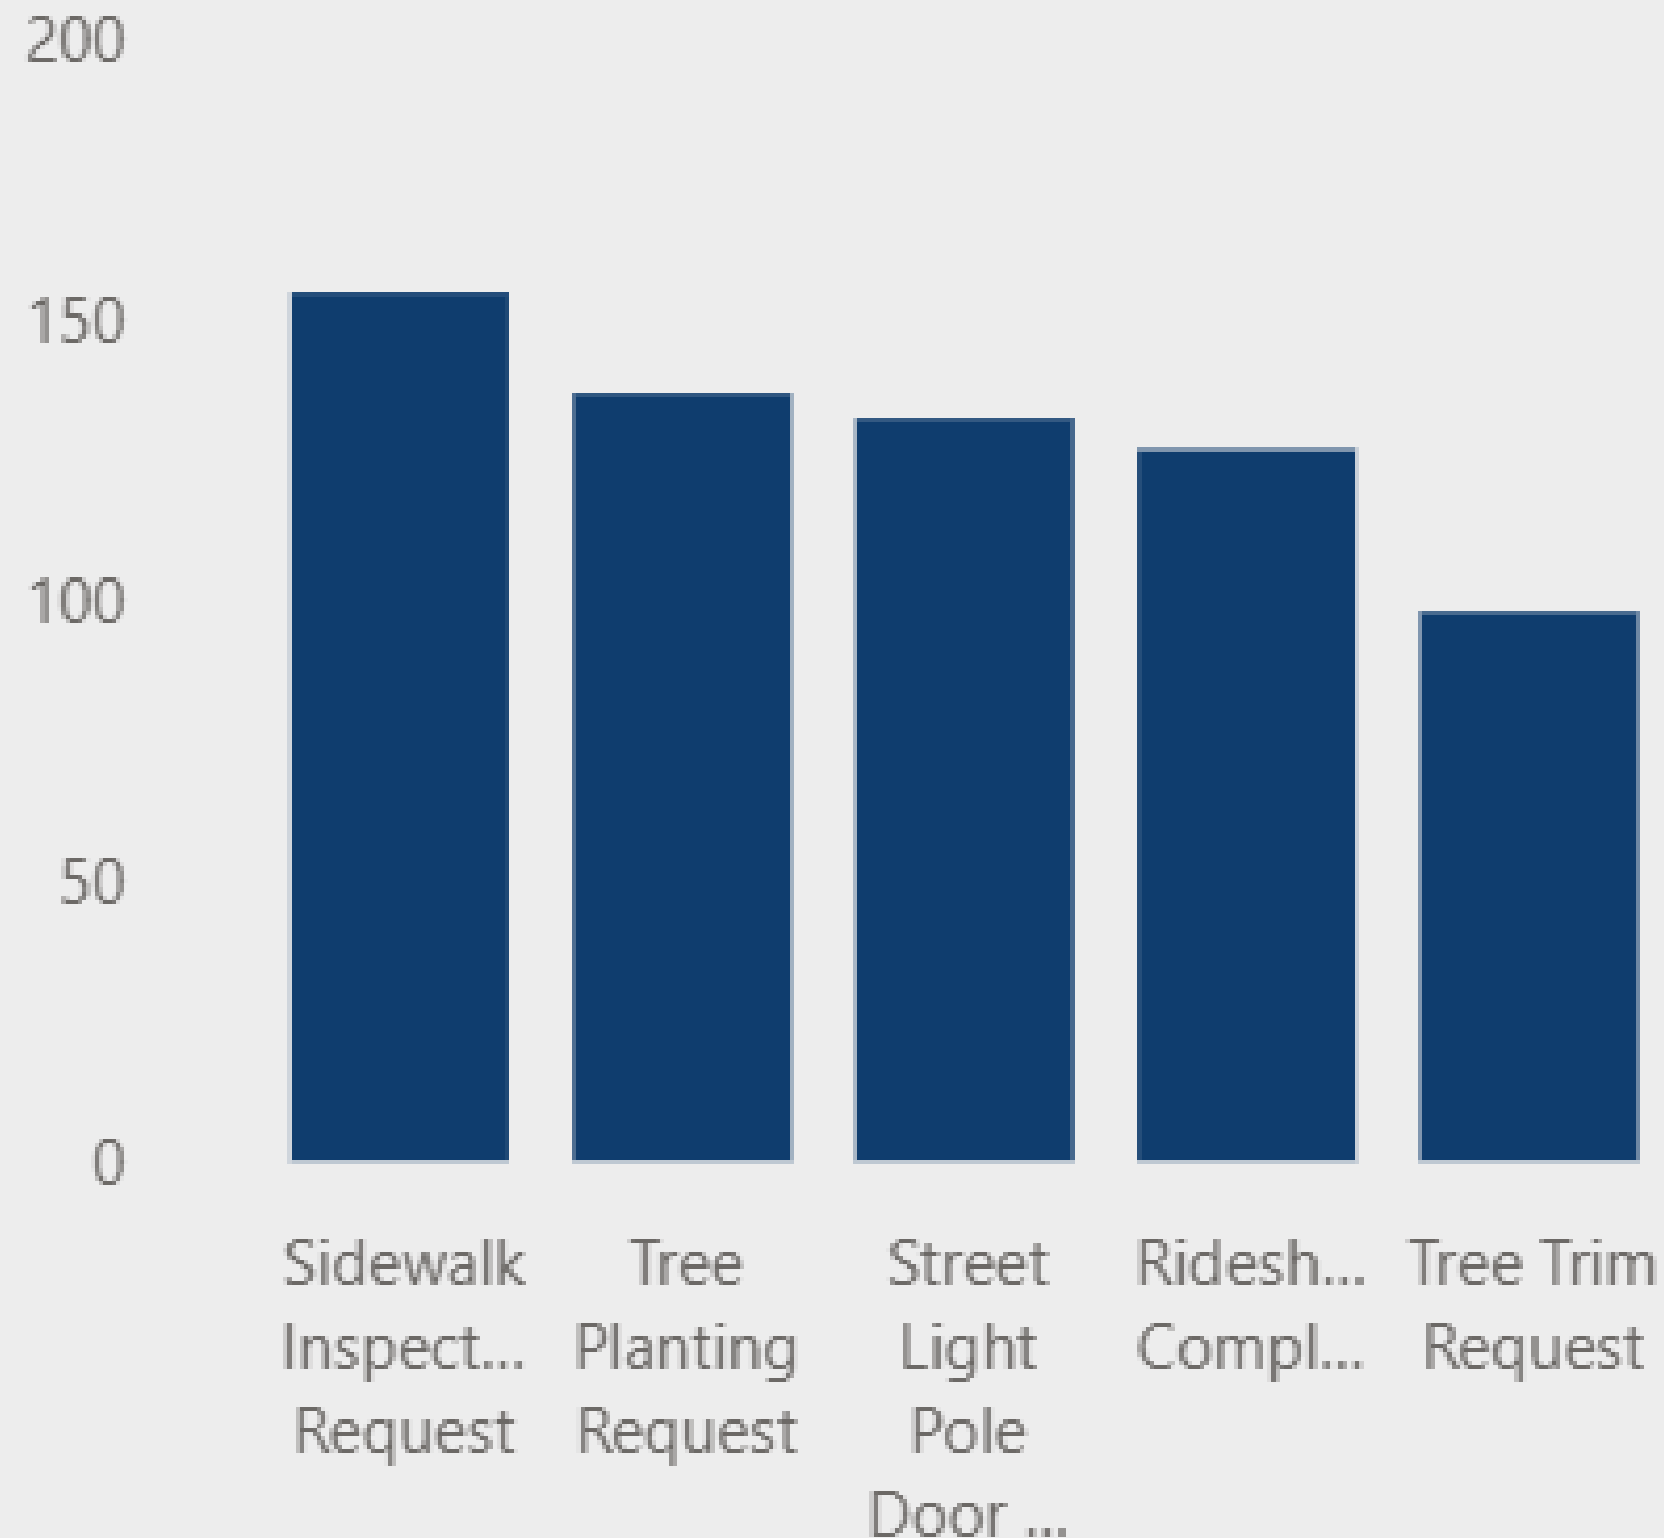

Chicago shows a lower duration for completing requests as it deals with requests that less time to complete specially **Information Only Calls** as they are mostly resolved in less than a day.

TOP 5 CATEGORIES WITH THE LONGEST RESOLVE TIME IN NYC

- **Mosquitoes** had the longest average resolution time, as they require inspections and multiple treatment visits.
- **Day Care** requests showed long resolution times, because they involve health and safety inspections and coordination with the appropriate city departments.

TOP 5 CATEGORIES WITH THE LONGEST RESOLVE TIME IN CHICAGO

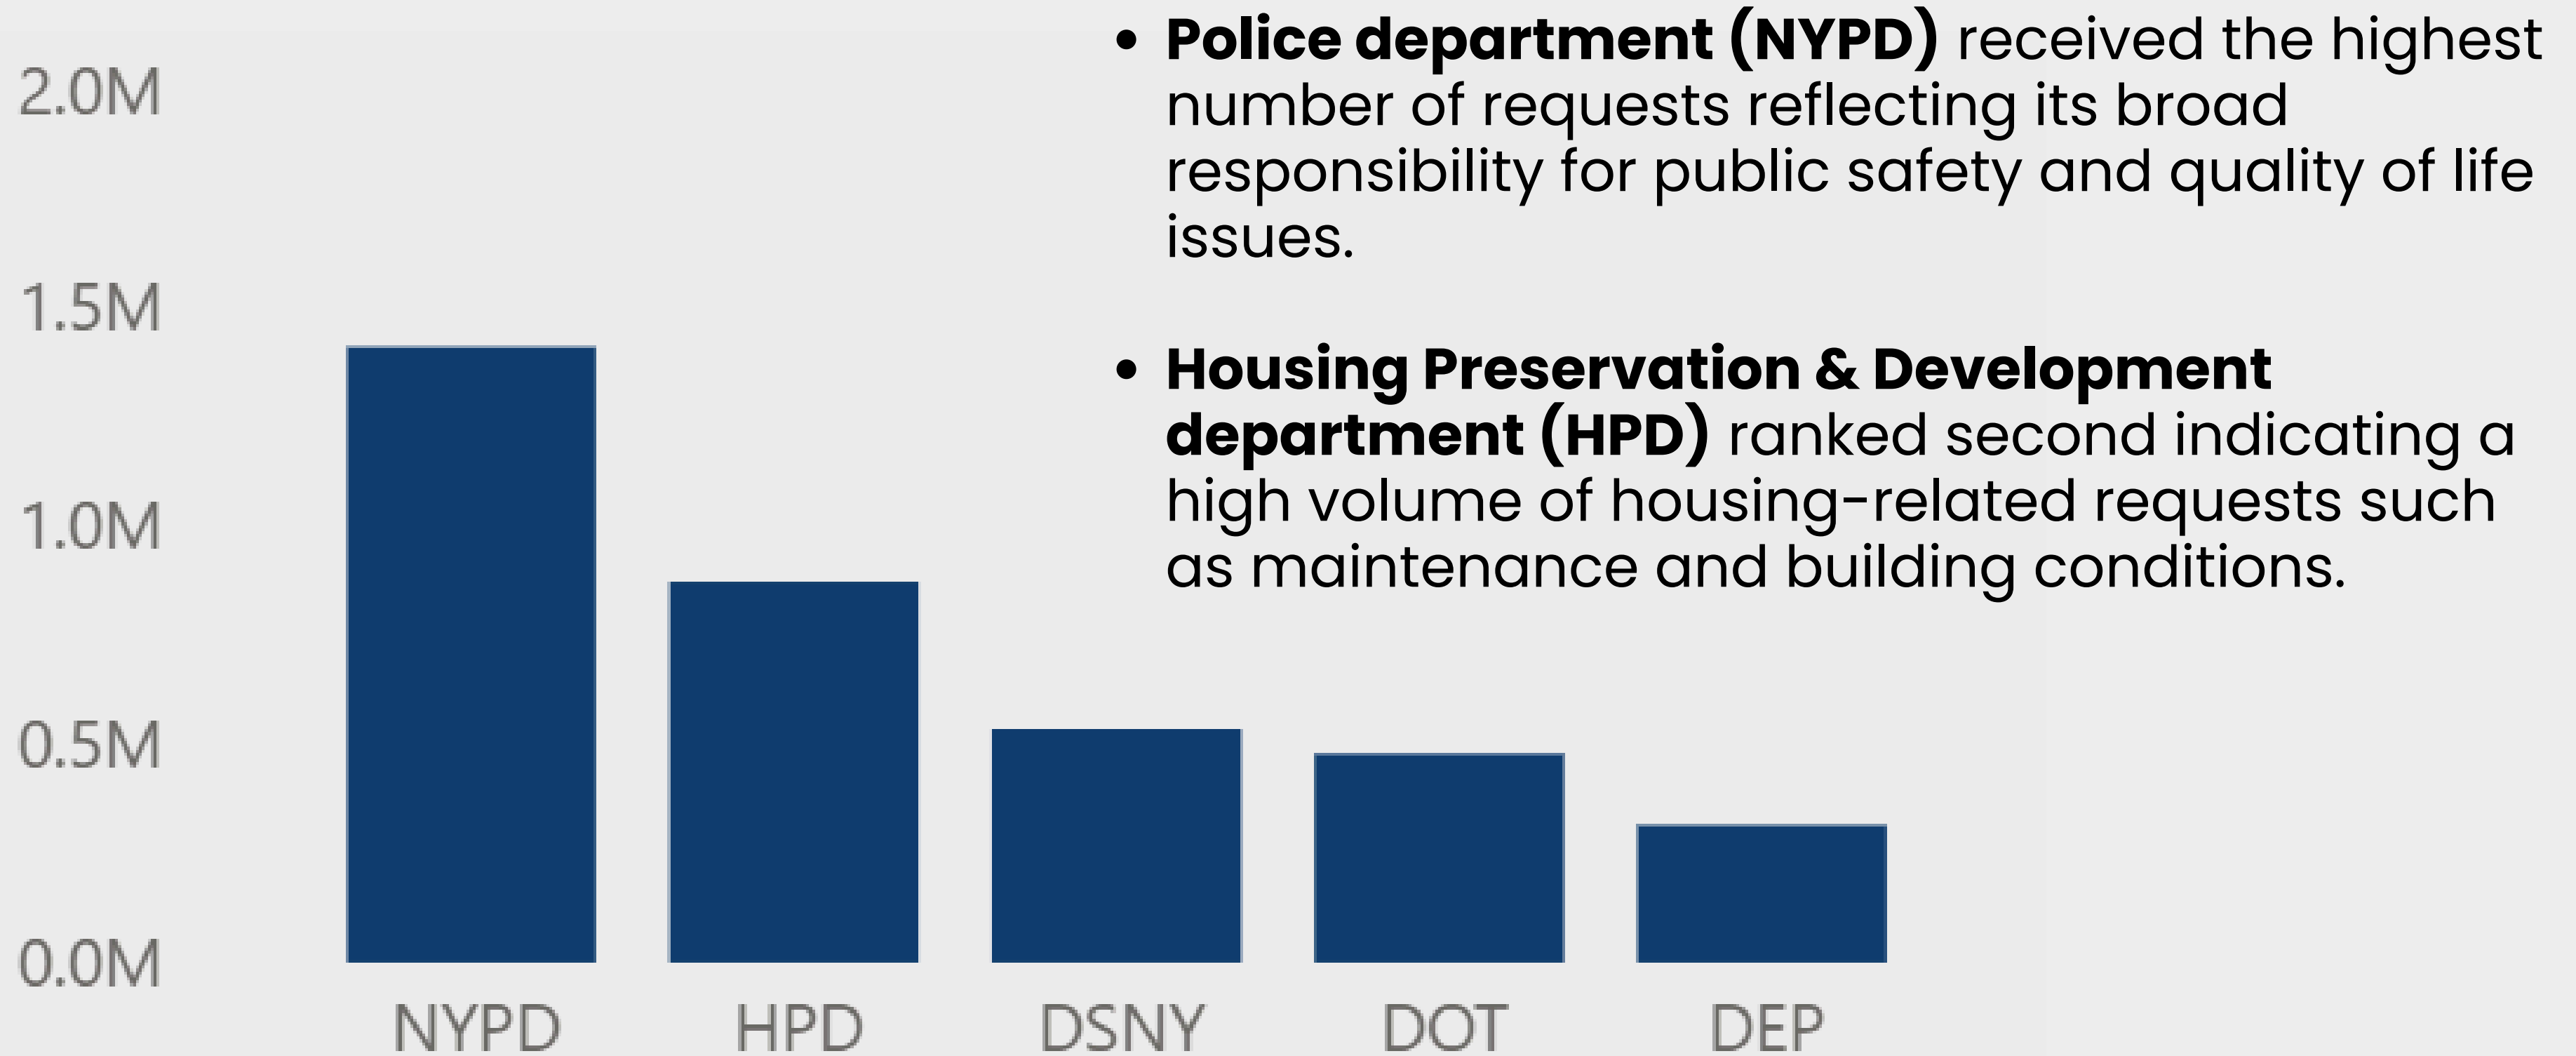

- **Sidewalk Inspection** Requests had the longest average resolution time, indicating that inspections and field assessments require more time to complete.
- **Tree Planting** and **Street Light** requests also long resolution times, suggesting they involve more complex maintenance work.

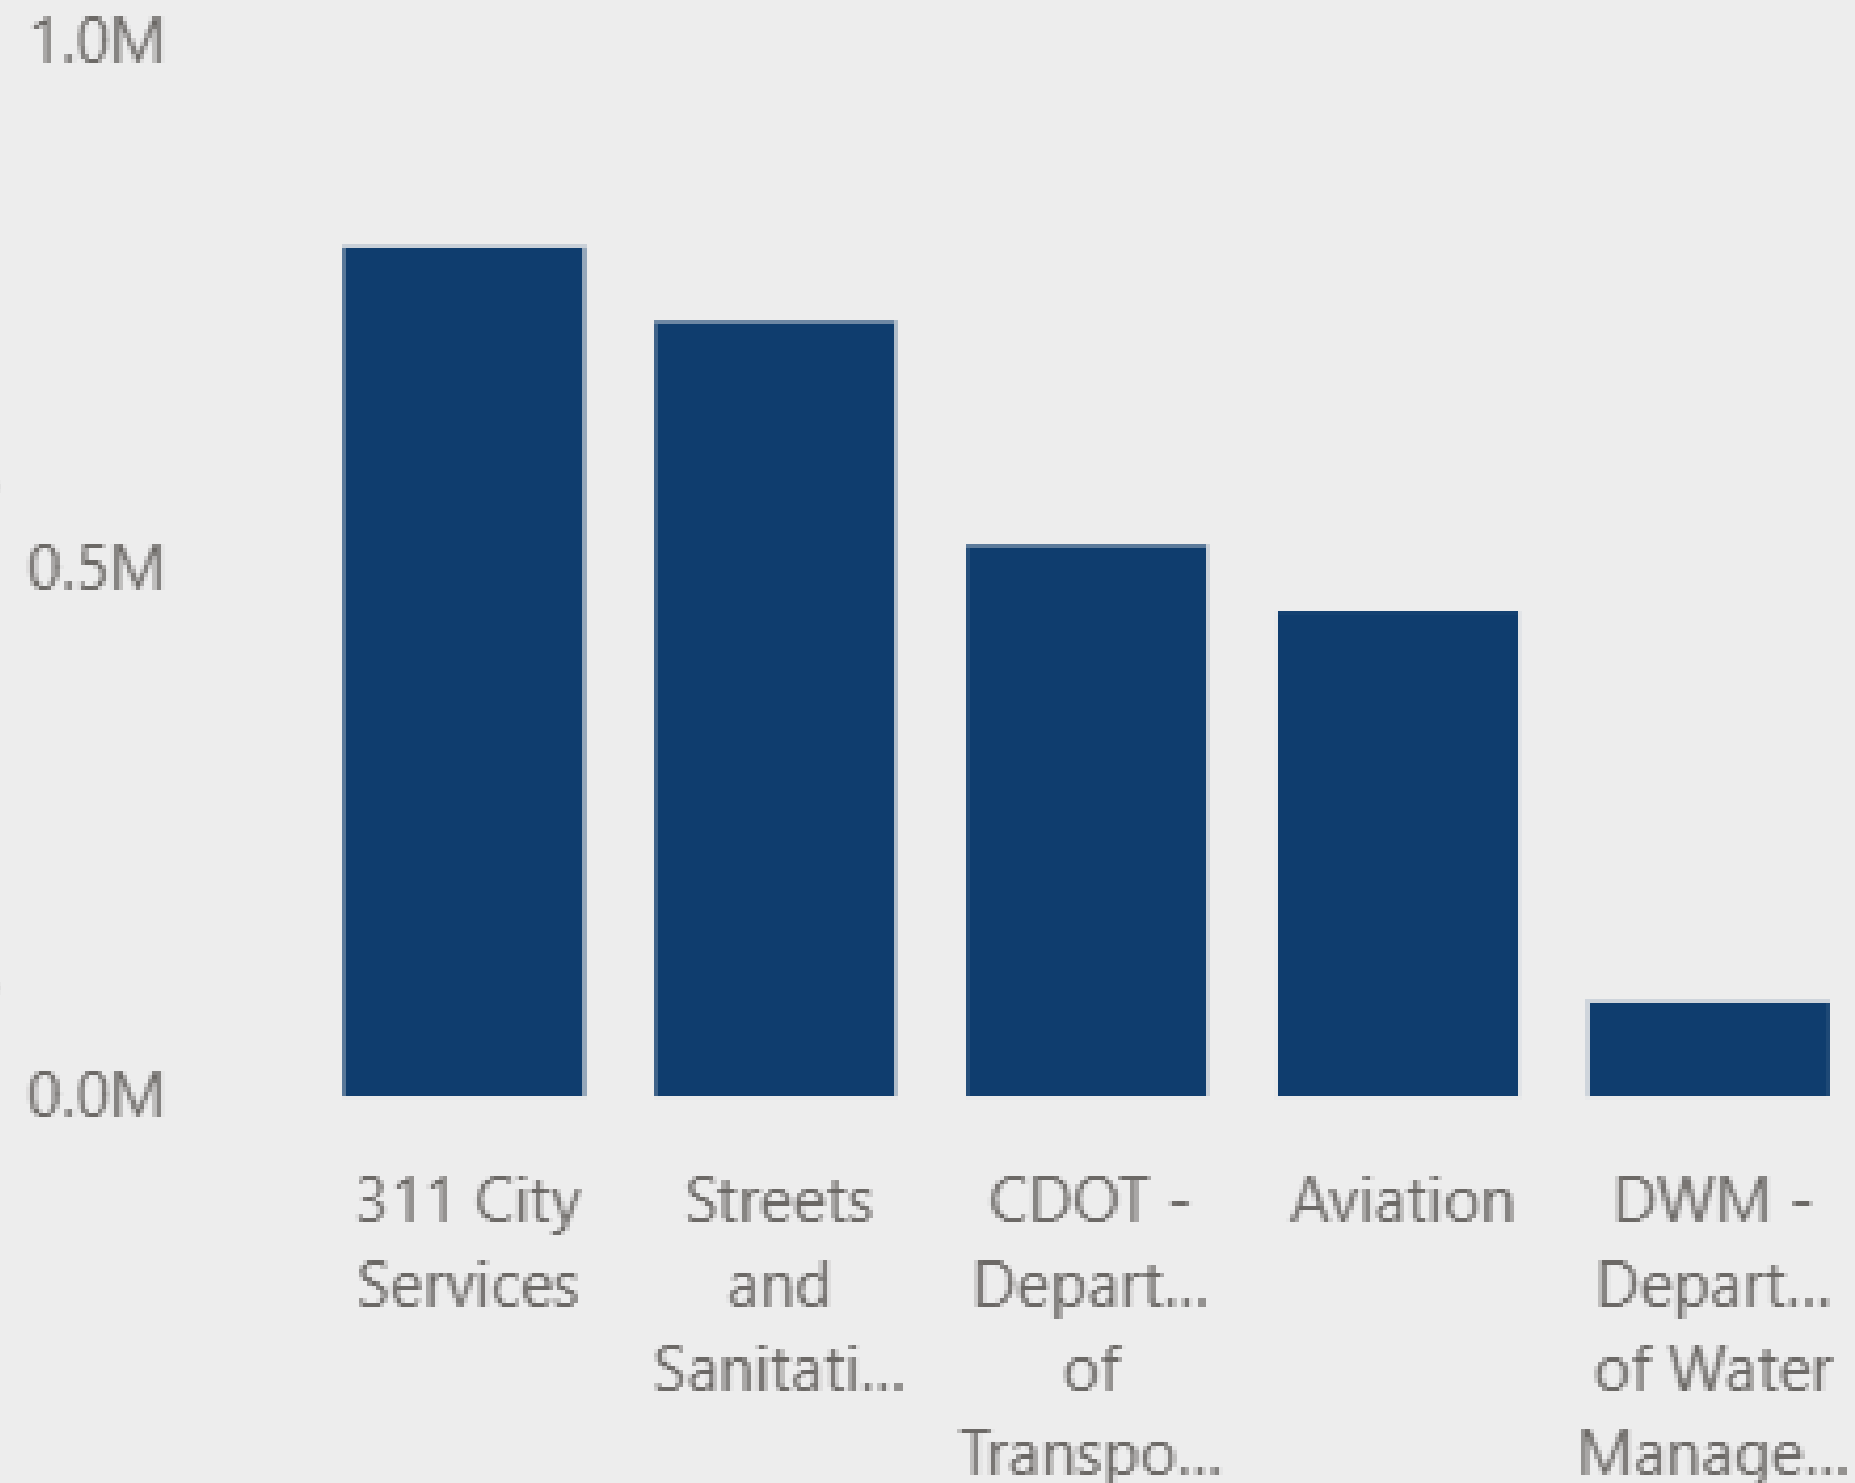

RESPONSIBLE AGENCIES

LOCATIONS

TOP 5 REQUESTS BY AGENCY IN NYC

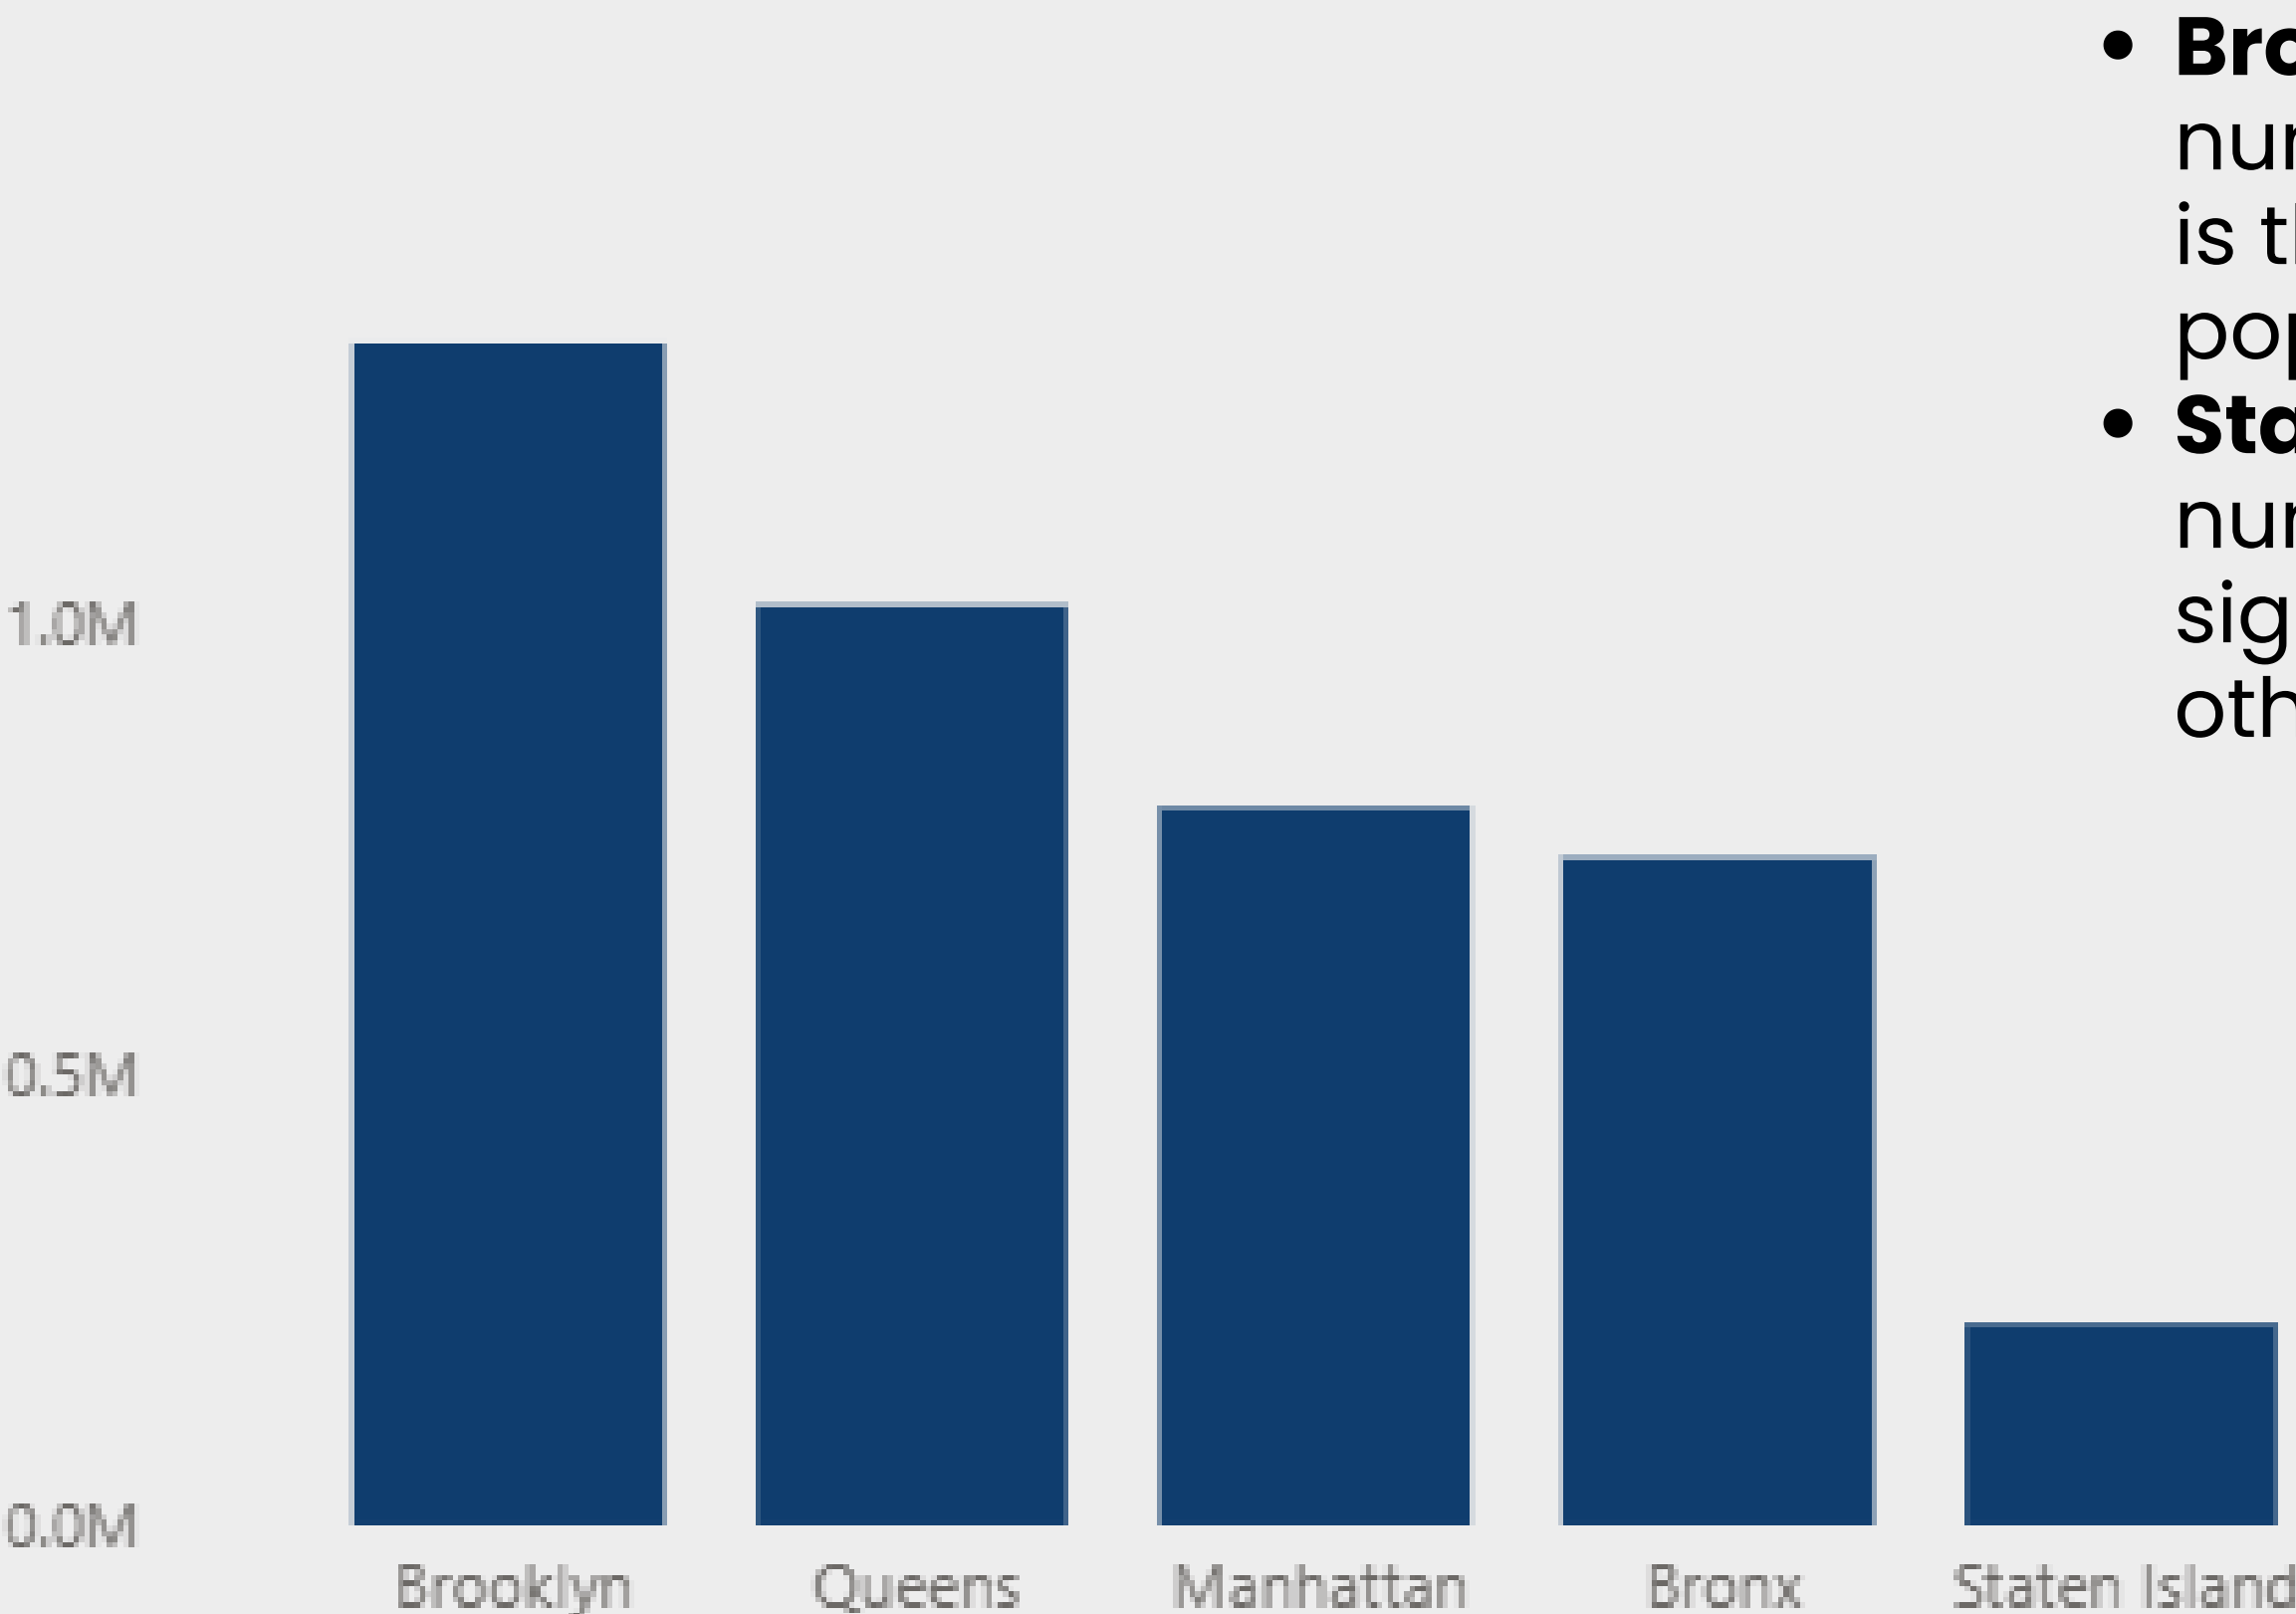

TOP 5 REQUESTS BY AGENCY IN CHICAGO

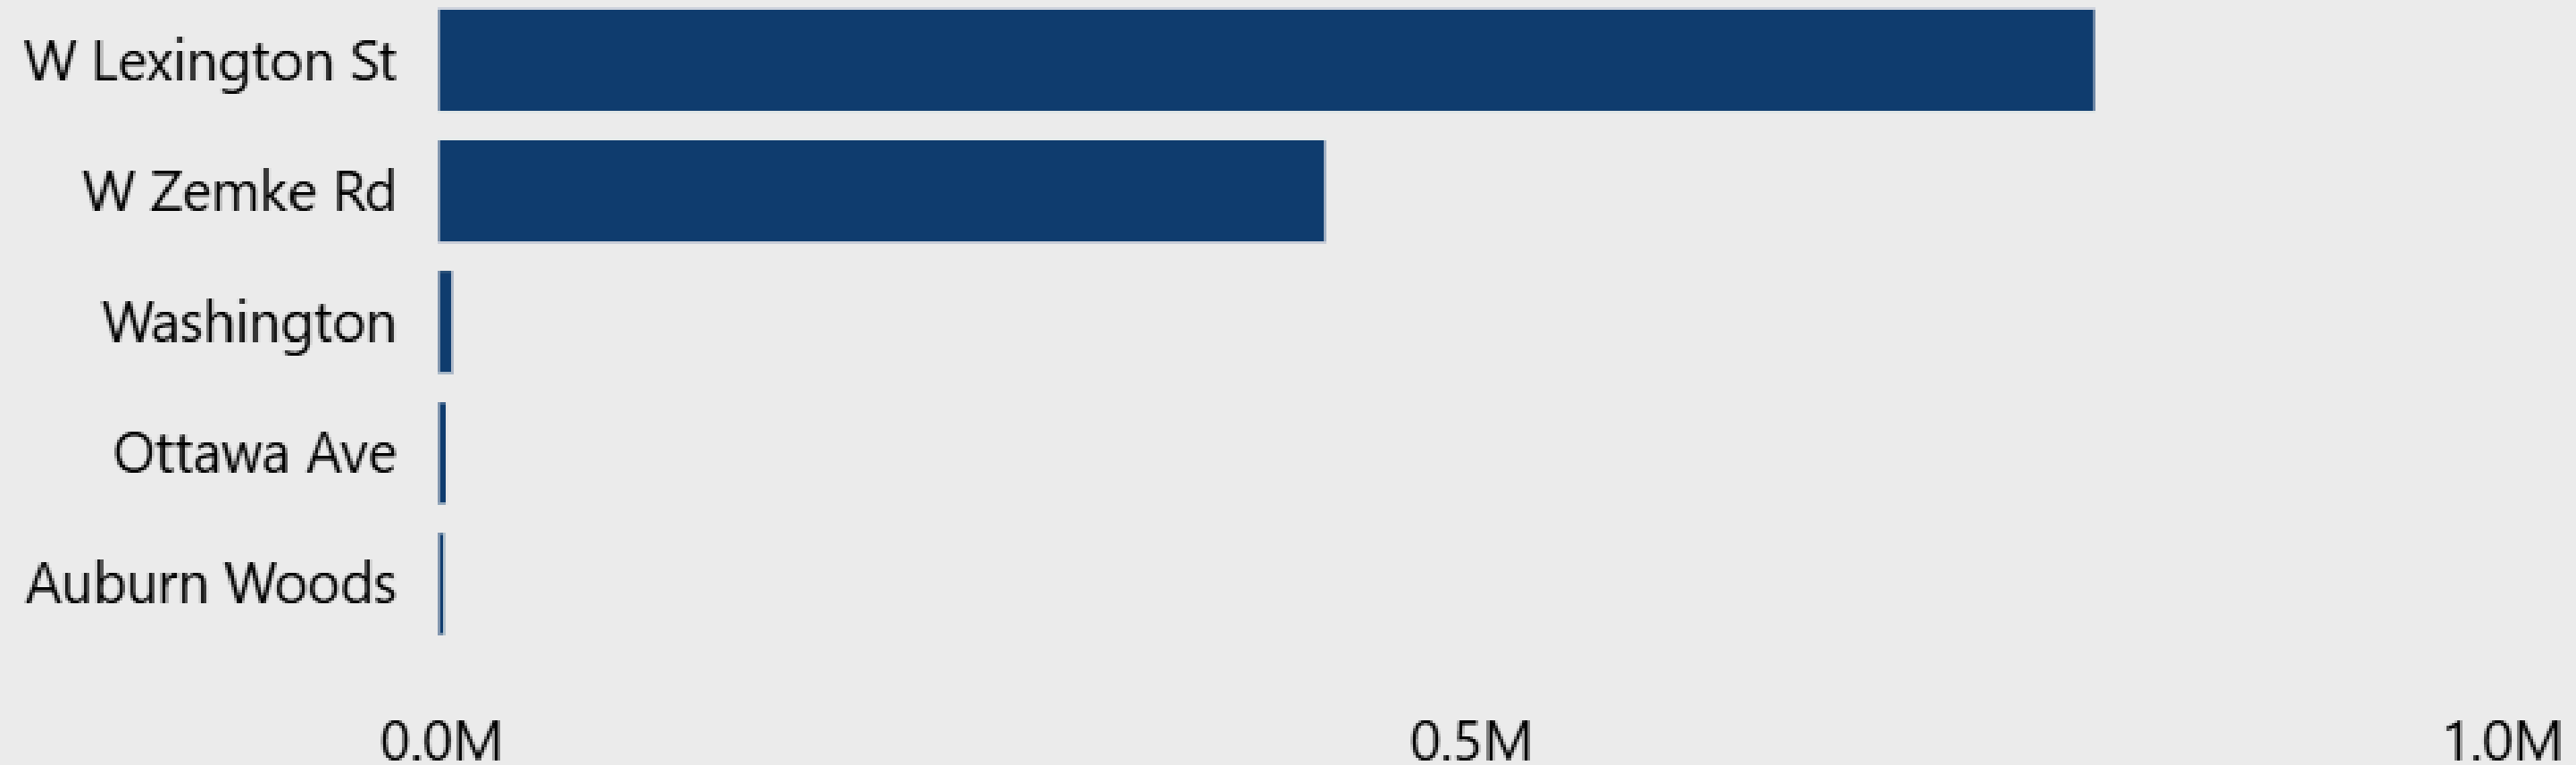

- **311 City Services** received the highest number of service requests reflecting its role as the primary point of contact for non-emergency city services.
- **Streets and Sanitation** ranked second indicating a high demand for street maintenance and waste management services.

TOP 5 REQUESTS BY BOROUGH IN NYC

- **Brooklyn** recorded the highest number of service requests as it is the culture hub and the most popular borough.
- **Staten Island** had a lower number of requests as it is significantly calmer than the other four.

TOP 5 REQUESTS BY COMMUNITY IN CHICAGO

- **W Lexington St** the “Irish Gold Coast” and **W Zemke Rd** the “Vital Access Road” as they experience higher levels of public activity and service demand.

RECOMMENDATIONS

Focus-on Requests with Longer Completion Time

NYC: Mosquitoes and Day Care.

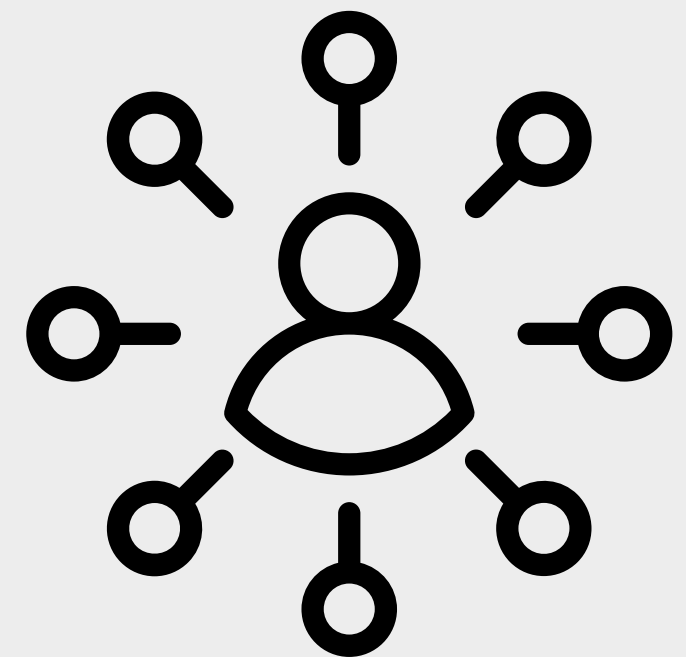

Chicago: Sidewalk Inspection and Tree Planting.

Allocate Additional Resources to Locations with Higher Requests Volume

NYC: Brooklyn

Chicago: Lexington St and Zemke Rd

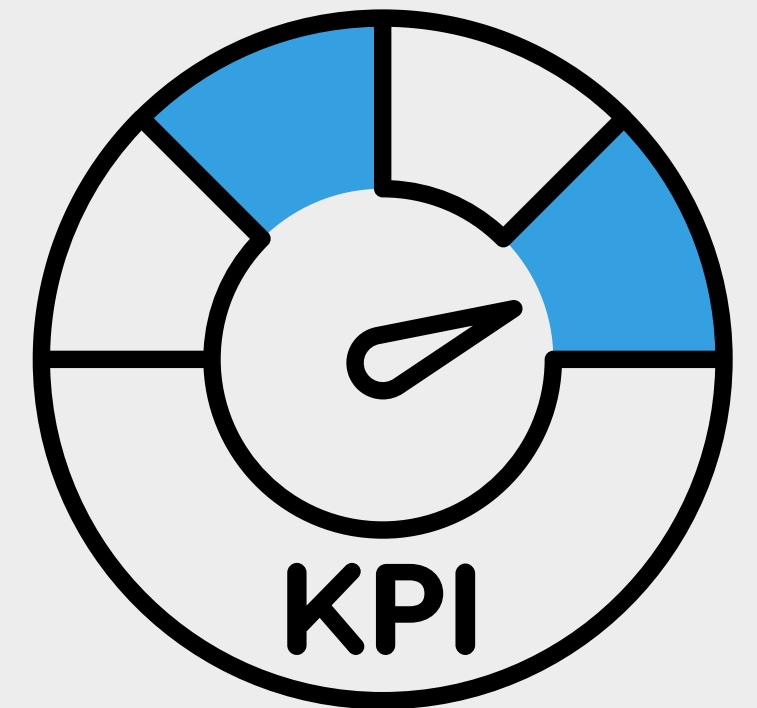

RECOMMENDATIONS

Monitor Performance of Responsible Agencies with Higher Requests Volume

NYC: NYPD and HPD.

Chicago: 311 city services and streets & Sanitation.

LIMITATIONS

Different data structures

limiting direct comparison between
chicago and NYC

City information

limiting the reliability of location-based
analysis and comparisons.

Staff member

Are delays related to employee
performance or complexity of request?
